Yellow	
Red	

UNDERSTANDING THE EDUCATOR'S LEVEL

Green	Educators at green level is most preferred for any educational institute, they would prove to be a great asset because they always push themselves to work harder towards being a perfectionist.
Yellow	Educators at yellow level comes under the second level of preference for any educational institute, they have the required interpersonal skills and abilities to do a satisfactory job however if given training and up-skilling opportunity they will maximise their skills and abilities to the benefit of the organization and learning community. Self Development should be the key here.
Red	Educators at red level needs a lot of improvement to become a right fit for any educational institute, they need to focus on improving their interpersonal skills so that they can become a preferred Educator for any institute and learning environment and can prove themselves as a great educator. Institutes should Invest in learning and self-development of such educators to empower them to live up to full potential.

Educator's Professional Skill Index

WHAT IS EDUCATOR'S PROFESSIONAL SKILL INDEX ?

Educator's professional skill index test assesses the individual for 9 must have traits and is defined on a scale of 10. The Index would inspire teachers to use the summary report as a self-development tool. It will be a helpful tool for schools to imbibe a positive culture among teaching staffs. A high Educator's Skills Index, suggests that educator has required human qualities and personality to stay motivated in the field of learning and teaching. Such educators exhibit senses of accountability, self and stress management, They are encouraging and knows how to manage their emotions and other challenges of the work. A low Educator's Skills Index is a reflection of poor self-management, lack of motivation, low integrity, and ethics, Poor Management, Team Work, stress management etc.
