CAREER REPORT · GRADUATE EDITION

Ideal Career Test™

AI-Era Edition

13 Career Families | 47 Sectors | 1,340 Careers

PREPARED FOR

Riya Menon (Sample)

STAGE	DATE	REPORT ID
Graduate	8 Nov 2026	CT26-SAMPLE13

TODAY'S SCORES ARE BUILT ON 6 ASSESSED PARAMETERS

- **Interest** — What pulls you
- **Aptitude** — What you can do
- **Personality** — How you naturally work
- **Emotional Quotient (EQ)** — How you read people
- **Work Style (Work Environment)** — Where and how you work best
- **Motivators** — What drives you

WHY THIS REPORT, FOR A GRADUATE

Also inside: parents p. 16 · counsellor notes p. 17 · more careers to explore · Appendix A at the back

STEP 1 · pp. 2–4
See your top careers
Families, sectors and careers, with tags

STEP 2 · pp. 5–10
Know yourself
6 parameters, one clear profile

STEP 3 · pp. 11–14
Explore, then apply
1,340 careers, then your next route

STEP 4 · p. 15
Take action
Clear next steps for you, your parents and your counsellor

HOW IT HELPS

one report, three readers

STUDENT

- **Prepare well in advance** — Start years early, not weeks
- **Know strengths & careers** — See what fits you, with proof
- **Pick activities and hobbies** — Extracurriculars that fit you
- **Choose exams and stream** — Competitive exams that suit you

PARENT

- **Guide with facts** — Back your advice with data
- **Know what to support** — ...and exactly when to step in
- **Plan budget and routes** — Costs, entry exams, backups
- **Calmer conversations** — Informed talks, fewer fights

COUNSELLOR

- **Guide with evidence** — Scores and fit % to point to
- **Keep them motivated** — Strengths-first talking points
- **Spot mismatches early** — Flag gaps before choices lock
- **Track progress** — Compare at next year's retake

INTERPRETATION NOTE

Results are indicative estimates of tendencies at the time of testing, not a diagnosis or a prediction. Scores carry measurement error and change with age and experience. The student is free to disagree with any result and discuss it with their counsellor or parents. Retaking next year is recommended.

Retake in a year. Compare two reports side by side and see what has grown.

Riya's result at a glance

psychometrictest.ai
by CareerGuide.com

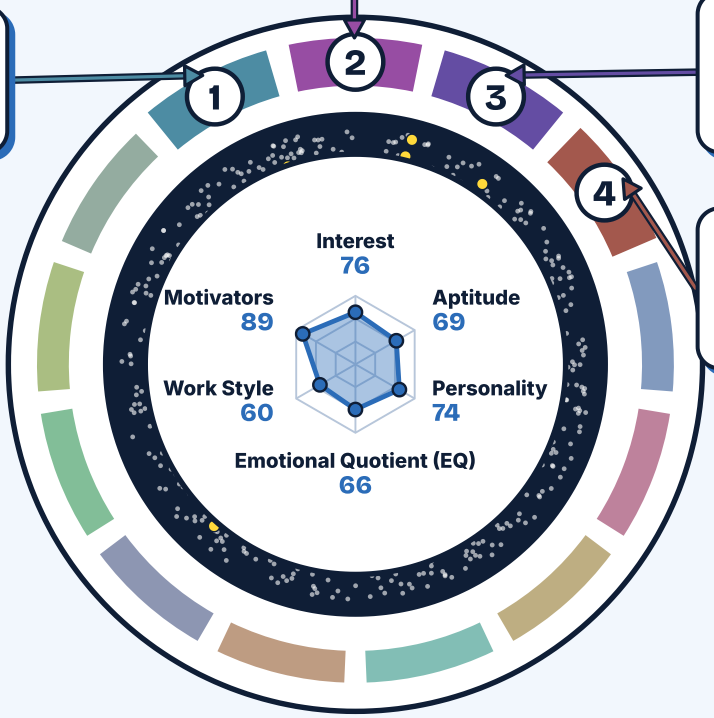

Your top 4 families, their sectors and your six-parameter profile. Sample student; sample scores.

2 Creators & Communicators
90% fit · sample
13 sectors · 3 careers

1 Digital & Systems Builders
91% fit · sample
9 sectors · 15 careers

3 Investigators & Analysts
89% fit · sample
14 sectors · 0 careers

4 Leaders & Persuaders
89% fit · sample
21 sectors · 1 career

13 career families · every dot is one of the 1,340 careers · 20 strong fits (91%+)

SECTORS IN YOUR 4 STRONGEST FAMILIES

39 sectors · 19 careers on pp. 3–4

1
- AI Engineering & Generative AI
- Gaming & Esports
- Software & Information Technology
- Cybersecurity & Digital Trust
- Blockchain, Crypto & Web3
- +4 more · p. 12

2
- AI Engineering & Generative AI
- Gaming & Esports
- AI Ethics & Governance
- Fashion, Beauty & Lifestyle
- Culinary & Food Business
- Humanities, Social Sciences & Social Impact
- +7 more · p. 12

3
- AI Engineering & Generative AI
- AI & Data Science
- Green Energy & Climate
- AI Ethics & Governance
- Environment & Planetary Engineering
- Science & Research
- Human Augmentation & Longevity
- Biotech, Genomics & Life Sciences
- +6 more · p. 12

4
- AI Engineering & Generative AI
- Blockchain, Crypto & Web3
- AI & Data Science
- Green Energy & Climate
- AI Ethics & Governance
- Fashion, Beauty & Lifestyle
- Infrastructure & Real Estate
- Humanities, Social Sciences & Social Impact
- +13 more · p. 12

Numbers match the ring. Dot shade: darker = stronger sector fit (p. 12). A sector shared by two families appears under each.

Fit % weights: Interest 30%, Aptitude 30%, Personality 10%, EQ 10%, Work Style 10%, Motivators 10%. Indicative, not final.

Riya's ideal careers · by family

psychometrictest.ai
by CareerGuide.com

Top careers in 4 of your families. Filled numbers are your Top 10.

ERA	Evergreen · Traditional · Internet-era · Cutting-edge	how new the career is

More careers to explore in Appendix A at the back of this report.

Riya's Interest

psychometrictest.ai
by CareerGuide.com

76 / 100

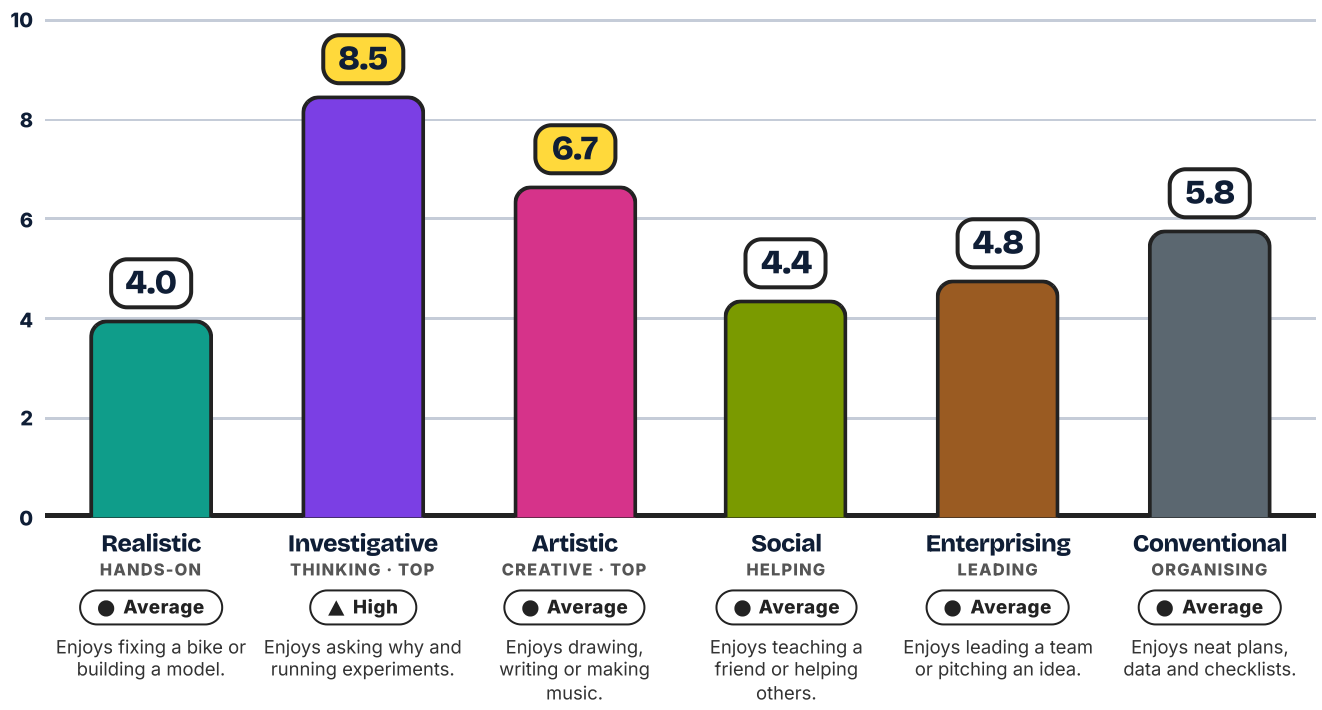

PARAMETER 1 OF 6 · WHAT PULLS YOU

▲ HIGH · VERY CLEAR SAMPLE SCORE

Your interests tend to point towards thinking-led, creative work.

YOUR INTEREST PROFILE · SIX RIASEC TYPES

Scale 0–10 SAMPLE SCORES

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Low is not bad: it shows what you enjoy less. Top two = your code, **IA**.

IN THE AI ERA

AI

●●●●○ High

Importance in the AI era · indicative

- Curious people keep learning new tools.
- An interest in building with technology fits AI-Augmented work.

YOUR AI READINESS

●●● Ready SAMPLE

Investigative 8.5 and Artistic 6.7 suggest you'll enjoy building with AI tools.

WHAT IT IS

Interest is what you naturally enjoy doing and want to do more of.

In one line: Interest is your compass.

WHY IT MATTERS

- People tend to stay longer in work they find interesting.
- It points to the career families and sectors worth exploring first.
- It helps you pick electives, clubs and projects.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Join a science, robotics or coding club.
- Enter a science fair or project showcase.
- Join an art, music, drama or writing club.
- Try one activity from a type you scored low, just to compare.

STUDENT
Pick activities that match your top two types.

PARENT
Offer tools and projects, not pressure.

COUNSELLOR
Compare the top two types with school choices.

Riya's Aptitude

psychometrictest.ai
by CareerGuide.com

69 / 100

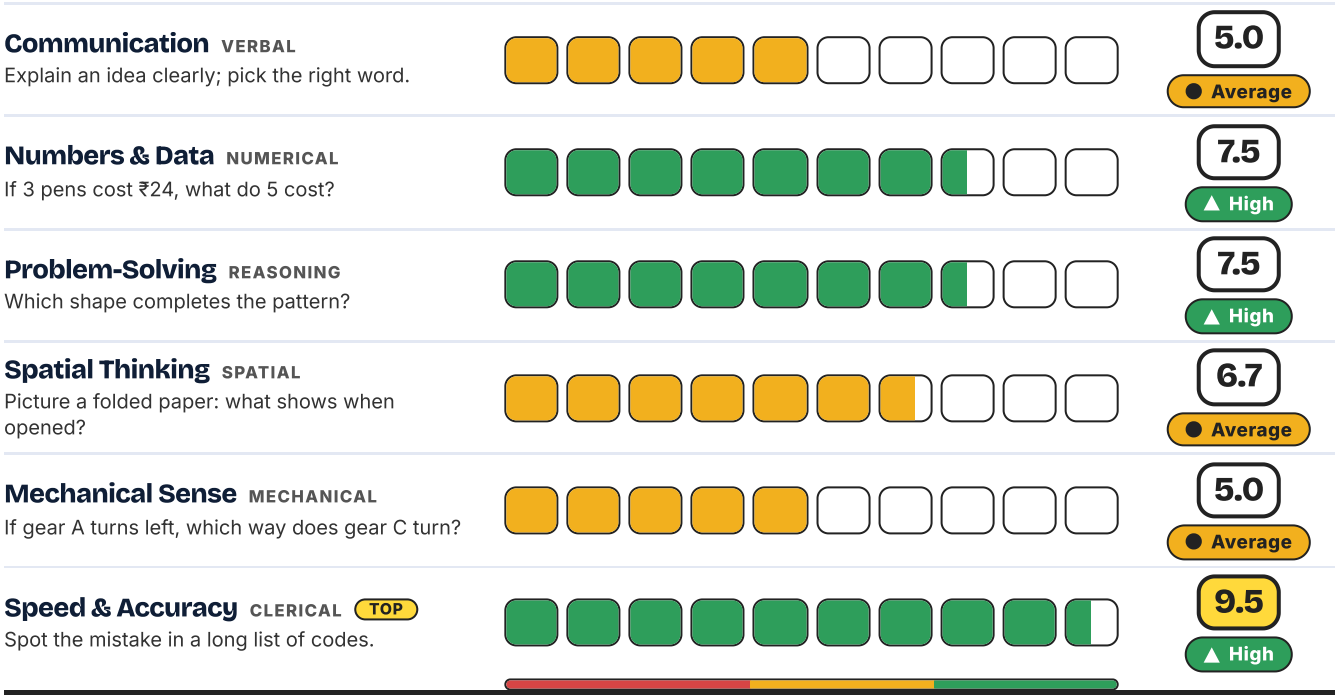

PARAMETER 2 OF 6 · WHAT YOU CAN DO

● AVERAGE SAMPLE SCORE

Your abilities suggest a solid base, with speed and accuracy standing out.

YOUR APTITUDE PROFILE · SIX ABILITIES

Scale 0–10 SAMPLE SCORES

LEVEL ▼ Low 0–4 room to grow ● Average 4–7 building ▲ High 7–10 strength

Each block = 1 point. Think of each row as a level to build, not a limit.

IN THE AI ERA

AI

Very high

Importance in the AI era · indicative

- Reasoning and problem-solving matter most.
- AI automates routine number and clerical tasks: build analytical, spatial and mechanical reasoning.

YOUR AI READINESS

Building SAMPLE

Speed & Accuracy 9.5 is what AI automates; lean on Problem-Solving 7.5.

WHAT IT IS

Aptitude is what you can do well right now, and how fast you pick up new skills. It is about ability, not marks.

In one line: Aptitude is your engine.

WHY IT MATTERS

- It shows where learning will feel easier.
- It helps you choose subjects: maths-heavy or language-heavy.
- Abilities grow with practice; a retake shows it.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Do a logic, number or pattern puzzle now and then.
- Build with gears, circuits or simple CAD.
- Try a past Olympiad or a practice aptitude paper.
- Practise timed tasks to build speed and accuracy.

STUDENT

Treat each bar as a level to build, not a limit.

PARENT

Praise the method, not just the marks.

COUNSELLOR

Match any gap to subject support.

Riya's Personality

psychometrictest.ai
by CareerGuide.com

74
/ 100

PARAMETER 3 OF 6 · HOW YOU NATURALLY WORK

▲ HIGH · CURIOUS · ORGANISED SAMPLE SCORE

Your style tends to be curious and organised.

YOUR PERSONALITY PROFILE · FIVE TRAITS

Scale 0–10 SAMPLE SCORES

Openness **Higher:** Tries new methods and ideas. **Lower:** Prefers proven, familiar ways.		8.1 ▲ High
Conscientiousness **Higher:** Plans ahead and finishes tasks. **Lower:** Works flexibly, in bursts.		8.1 ▲ High
Extraversion **Higher:** Gets energy from groups and talk. **Lower:** Recharges alone; quiet focus.		5.6 ● Average
Agreeableness **Higher:** Cooperates and avoids conflict. **Lower:** Direct; questions and challenges.		6.9 ● Average
Emotional Stability **Higher:** Stays calm when plans change. **Lower:** Feels stress strongly; plans more.		8.1 ▲ High

SCORE OUT OF 10: 0 2 4 6 8 10

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Low is not bad: it shows what you prefer less. Clues to how you like to work, never a label.

IN THE AI ERA

AI

●●●●○ High

Importance in the AI era · indicative

- Openness and adaptability help when work keeps changing.
- Roles that AI is transforming reward people who adjust fast.

YOUR AI READINESS

●●● Ready SAMPLE

Openness 8.1 suggests you adapt fast; use it to try new AI tools early.

WHAT IT IS

Personality is your usual way of thinking, working and reacting.

In one line: Personality is your driving style.

WHY IT MATTERS

- It explains how you like to work, not how well.
- It helps you choose team or solo roles.
- It shows what drains you and what recharges you.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Notice which tasks leave you energised or drained.
- Try one new hobby outside your comfort zone.
- Lead one small task and ask teammates how it felt.

STUDENT
Choose study and work modes that suit your style.

PARENT
Feed curiosity with new places and ideas.

COUNSELLOR
Discuss change-heavy roles against Openness 8.1.

Riya's Emotional Quotient (EQ)

psychometrictest.ai
by CareerGuide.com

66
/ 100

PARAMETER 4 OF 6 · HOW YOU READ PEOPLE

● AVERAGE · DEVELOPING SAMPLE SCORE

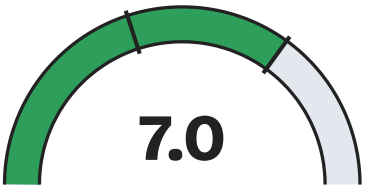

You tend to know what you are feeling.

YOUR EQ PROFILE · FOUR PARTS

Scale 0–10 SAMPLE SCORES

Self-awareness

▲ High

Higher: Names "I am nervous before exams".
Still growing: Feels tense without knowing why.

Handling pressure

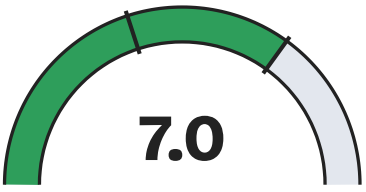

GROWTH AREA ● Average

Higher: Stays steady when a deadline moves.
Still growing: Freezes or rushes when plans change.

Empathy

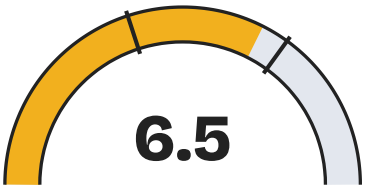

▲ High

Higher: Senses a friend is upset unprompted.
Still growing: Misses signals; reads only words.

Persistence

● Average

Higher: Keeps going after a bad test result.
Still growing: Gives up when a task gets hard.

LEVEL ▼ Low 0–4 room to grow ● Average 4–7 building ▲ High 7–10 strength

EQ is a skill: it grows with practice and feedback. Average of the four parts = **6.6**.

IN THE AI ERA

AI

●●●●● Very high

Importance in the AI era · indicative

- Empathy, people skills and handling pressure are the hardest for AI to copy.
- They tend to stay valuable as AI spreads.

YOUR AI READINESS

●● ○ Building SAMPLE

Handling pressure 6.0 is your growth area, and calm under pressure is hard for AI to copy.

WHAT IT IS

Emotional Quotient (EQ) is how well you notice, understand and manage feelings: yours and other people's.

In one line: EQ is your steering with people.

WHY IT MATTERS

- Teams and clients rely on people who read others well.
- It helps in interviews, group work and exams.
- It can be practised, unlike a fixed trait.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Do a group project and ask for honest feedback.
- Practise listening: repeat what a friend said before replying.
- Join peer mentoring or a buddy programme.
- Pause, name the feeling, then respond.

STUDENT

Pause, name the feeling, then respond.

PARENT

Talk about feelings without rushing to fix them.

COUNSELLOR

Use timed role-play to practise staying calm.

Riya's Work Style (Work Environment)

psychometrictest.ai
by CareerGuide.com

60 / 100

PARAMETER 5 OF 6 · WHERE AND HOW YOU WORK BEST

● AVERAGE · FAST · STABLE SAMPLE SCORE

You tend to prefer a fast pace, stability and lab or studio settings.

YOUR WORK STYLE · FIVE CHOICES

Scale 0–10 SAMPLE SCORES

		Left	Right	Score	
People	Who you work with	Solo or small team · data scientist	People-heavy · teacher	5.0	● Average
Outdoor	Where you work	Indoor · software developer	Outdoor · forester	5.0	● Average
Flexible	How your day is set	Fixed routine · pilot	Flexible hours · freelance designer	5.0	● Average
Pace STANDS OUT	How fast it moves	Steady · lab scientist	Fast · newsroom	7.5	▲ High
Risk STANDS OUT	How much uncertainty	Stable · government engineer	Risk-taking · start-up founder	2.5	▼ Low

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Preferred settings Lab · Studio · Office **Low is not bad:** it shows what you prefer less. No right answer.

IN THE AI ERA

AI

●●●○○ Medium

Importance in the AI era · indicative

- Suits human + AI teamwork: data and tools, people, or field work.
- Pace and adaptability help when work keeps changing.

YOUR AI READINESS

●●○ Building SAMPLE

Pace 7.5 suggests fast-moving work, where AI speeds things up further.

WHAT IT IS

Work Style (Work Environment) is the kind of working day that suits you: with whom, where, and at what pace.

In one line: Work Style is the road you prefer.

WHY IT MATTERS

- The same job title can feel very different day to day.
- It helps you avoid a job that wears you out.
- It guides internships and first-job choices.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Visit a lab, workshop or farm and note how the day feels.
- Join a field club: nature, astronomy or robotics.
- Watch day-in-the-life videos of two careers.

STUDENT

Imagine a normal working day, not just a job title.

PARENT

Ask about the workplace, not only the marks.

COUNSELLOR

Compare settings and pace across careers.

Riya's Motivators

psychometrictest.ai
by CareerGuide.com

89 / 100

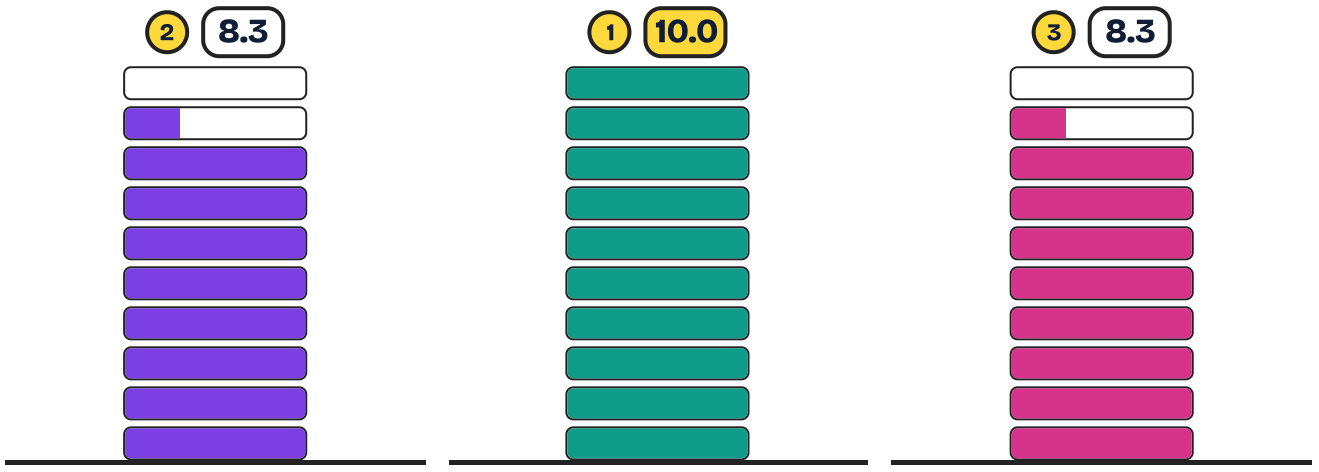

PARAMETER 6 OF 6 · WHAT DRIVES YOU

▲ HIGH · CLEAR DRIVERS SAMPLE SCORE

Challenge, Income and Variety suggest what you may want from work.

YOUR MOTIVATORS · TOP THREE OF TEN

Scale 0–10 SAMPLE SCORES

Income EARNING
▲ High
Wants strong earnings.

Challenge LEARNING
▲ High
Picks hard problems: research,

Variety NEW EACH DAY
▲ High
Wants different tasks, places and people.

NOT IN YOUR TOP THREE

Balance	Leadership	Passion	Respect	Stability	Helping	Independence
MIXED	LEADING OTHERS	LOVE OF WORK	RECOGNITION	SECURITY	IMPACT	OWN CALLS
TIME FOR LIFE	3.3 · LOW	3.3 · LOW	1.7 · LOW	1.7 · LOW	1.7 · LOW	0.0 · LOW
3.3 · LOW						

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Low is not bad: it shows what matters less to you. Each block = 1 point.

Everyone's top three differ; none is better. Mixed = your two answers disagreed.

IN THE AI ERA

AI

●●●○○ Medium

Importance in the AI era · indicative

- Challenge and learning drivers sustain reskilling.
- If Stability matters most to you, plan for change.

YOUR AI READINESS

●●● Ready SAMPLE

Challenge 10.0 tends to keep you learning.

WHAT IT IS

Motivators are what you want from work beyond the job title: the things that make a career feel worth it.

In one line: Motivators are your destination.

WHY IT MATTERS

- It explains why a "fitting" career can still feel wrong.
- It helps you say no to a mismatch.
- It gives you words to explain choices to parents.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- List your top three drivers before choosing electives.
- Compare two options on your top driver.
- Ask two working adults what they enjoy and miss.

STUDENT

Rank your drivers before you pick a career.

PARENT

Ask what the career gives back, not only pay.

COUNSELLOR

Revisit the drivers at the next retake.

Riya's 13 career families

psychometrictest.ai
by CareerGuide.com

Every career belongs to one of 13 families. Each coloured arc is one family, numbered by your fit; the same colour follows the family through the whole report.

Numbered arcs = the 13 families · thick = your top 3
Dots = all 1,340 careers · yellow = your Top **10**

	FAMILY · BY YOUR FIT	FIT · SAMPLE	SECTORS	CAREERS
1	Digital & Systems Builders	91%	6	145
2	Creators & Communicators	90%	6	143
3	Investigators & Analysts	89%	6	165
4	Leaders & Persuaders	89%	5	137
5	Builders & Makers	88%	8	162
6	Carers & Healers	87%	3	152
7	Hosts & Experience-Makers	87%	2	42
8	Operators & Navigators	87%	2	43
9	Performers & Competitors	87%	2	66
10	Organisers & Planners	87%	2	116
11	Growers & Nature Stewards	87%	1	47
12	Educators & People-Developers	86%	3	87
13	Protectors & Responders	84%	1	35

YOUR TOP 3 FAMILIES

1 Digital & Systems Builders — 91%
Curiosity + problem-solving: software and the digital systems behind it.

2 Creators & Communicators — 90%
Creativity + a way with words: ideas, stories and designs that move people.

3 Investigators & Analysts — 89%
Curiosity + problem-solving: you ask "why" and test the answer.

PICKED BY INTEREST Your Interest score sorts the 13 families first. Family fit % = average of its 10 best careers (sample student). The spread is only 7 points (84–91%), so **nothing is ruled out**.

Next: zoom in → Your top 3 families hold 18 of the 47 sectors — Digital 6, Creators 6, Investigators 6. Page 12 lists every sector under its family, with your fit shade.

Riya's families and 47 sectors

psychometrictest.ai
by CareerGuide.com

Find a family by its colour and number, then read its sectors. Nothing is closed to you: this is the whole map.

FIT SHADE — Strongest 91+ · 5 | Strong 87–90 · 18 | Good 82–86 · 23 | Lighter under 82 · 1 | ★ top-5 sector

MSc / MD / allied health · NEET-PG, GATE-BT, CUET-PG

Humanities / Arts

PULLS TOWARD
+ Personality: Openness 8.1

PULLS AWAY
− Interest: Social 4.4

ROUTES AND EXAMS
MA / LLM / civil services · CUET-PG, CLAT-PG, UPSC

HOW TO DECIDE — THREE QUESTIONS FOR THE FAMILY TABLE

1 Which route do you actually want for the next 2–3 years? Your data points to PCM routes — the choice is yours.

2 Do you have a back-up route and a back-up application? One more door costs little now.

3 Are you choosing for you, not because batchmates did? Talk it through with a mentor, then decide.

DO THIS MONTH List the exams and applications for your top 3 careers with their dates. Send the first one.

Riya's road and action plan

psychometrictest.ai by CareerGuide.com

One path from your degree to your next role, then what to do next.

THE ROAD IN

	1 Degree in hand (YOU ARE HERE)	2 Exam or application	3 PG / training	4 Internship	5 First role	6 Senior role
Science (PCM)	GATE / CAT / placements	M.Tech / MBA / job	Internship or project	Trainee or junior role	Specialist or lead role
Science (PCB)	NEET-PG / GATE-BT / CUET-PG	MD / MSc / allied training	Internship or residency	Trainee or junior role	Specialist or lead role
Commerce	CAT / CA Inter / CFA	MBA / CA / CS	Internship or articleship	Trainee or junior role	Specialist or lead role
Arts / Humanities	CUET-PG / CLAT-PG / UPSC	MA / LLM / services	Internship or apprenticeship	Trainee or junior role	Specialist or lead role

- Every route has a low-fee, merit-based way in: government colleges, state universities, polytechnics, ITIs.

Routes are indicative and the same for every student. Check each exam's official site for current details.

AI BUILD AI SKILLS ALONG THE WAY

Degree
Use AI to learn faster. Check every answer yourself.

PG / training
Do one AI course or project each year.

Internship
Use AI on real work. Build a small portfolio.

First role
Keep the judgement human. Learn one new AI tool a year.

DO · HOBBIES AND ACTIVITIES

+ **Pick one hobby and stay with it**
  Depth beats trying everything.
+ **Join one school activity**
  Club, sport, debate, competition. Builds teamwork.
+ **Turn a hobby into a small project**
  It builds a portfolio for admissions and internships.

DON'T · HOBBIES AND ACTIVITIES

× **Join everything for the certificate**
  One or two done well beat ten done lightly.
× **Drop hobbies for marks alone**
  They build skills and confidence marks don't show.
× **Treat a hobby as wasted time**
  Practice builds focus and confidence.

YOUR NEXT TWO STEPS · BOTH SMALL

- **One application.** Send one internship, PG or job application this month.
- **One real conversation.** Chat with someone in a field you like. Ask what a normal Tuesday looks like.

THEN, WITH CAREERGUIDE

- **Explore courses and scholarships.** Counselling for GATE, CAT, CUET-PG and study abroad.
- **Talk to a counsellor.** Booked separately. Bring this report.
- **Retake in a year.** Same phone number links reports (ID CT26-SAMPLE13).

Remember This report is a map, not a verdict. Interests grow and change. Retake it in a year and see how your Top 10 (p. 3) moves.

For Riya's mentor or professor

How to support Riya · Graduate

THE REPORT IN THREE POINTS

- **Riya's strengths:** Riya enjoys figuring things out and creating and imagining, and is quick and careful with detail and fast and accurate with numbers.
- **What energises Riya:** A mix of desk and field work with a few people at a fast pace. Challenge, income and variety matter most to Riya.
- **Where support helps:** Riya is even and adaptable, so a steady routine helps. Reading how others feel is still growing.

DO

+ Praise effort and curiosity by name, not only results.
+ Listen first. Let Riya finish before you advise.
+ Give Riya time to think before answering.
+ Help Riya weigh the routes; let Riya own the choice (**p. 14**).

SUPPORT

- Keep curiosity projects going: experiments, data, deep reads.
- Try a research group, a quiz league or an open problem.
- Visit a lab or research centre to see the work up close.
- Make room for group projects and talking ideas through.

AVOID

× Comparing Riya with friends or colleagues.
× Pushing one route because "everyone does an MBA".
× Treating the report as a verdict or a label.
× Ruling out a career before you have read about it together.

QUESTIONS TO ASK

- What did you enjoy figuring out or creating lately?
- Which of your top careers surprises you most?
- What would a normal Tuesday look like in that job?
- What would you like me to help with, and what not?

AI PREPARE FOR THE AI ERA TOGETHER

- **Where Riya stands:** ready on interest, personality and motivators; Aptitude, EQ and Work Style building.
- Practise problem-solving: puzzles, logic games, a past aptitude paper.
- Build people skills: group projects, peer mentoring, talking through a disagreement.
- Learn one AI tool together and use it to make something, not to copy answers.
- Read the AI tags on Riya's careers together (**pp. 3–4**) and ask what stays human.

PLANNING AHEAD

- Look at routes and costs together (**p. 15**): government colleges, state universities, polytechnics, ITIs.
- Read Riya's ideal careers (**pp. 3–4**) and more careers to explore (**Appendix A**).
- Keep a back-up exam and application on the list.
- Use the action plan (**p. 15**) to choose next steps.

This report gives indicative estimates, not a diagnosis or a prediction. Riya is free to disagree with any result. Retaking in a year will show how Riya has grown. A CareerGuide.com counsellor can talk it through with you (**p. 17**).

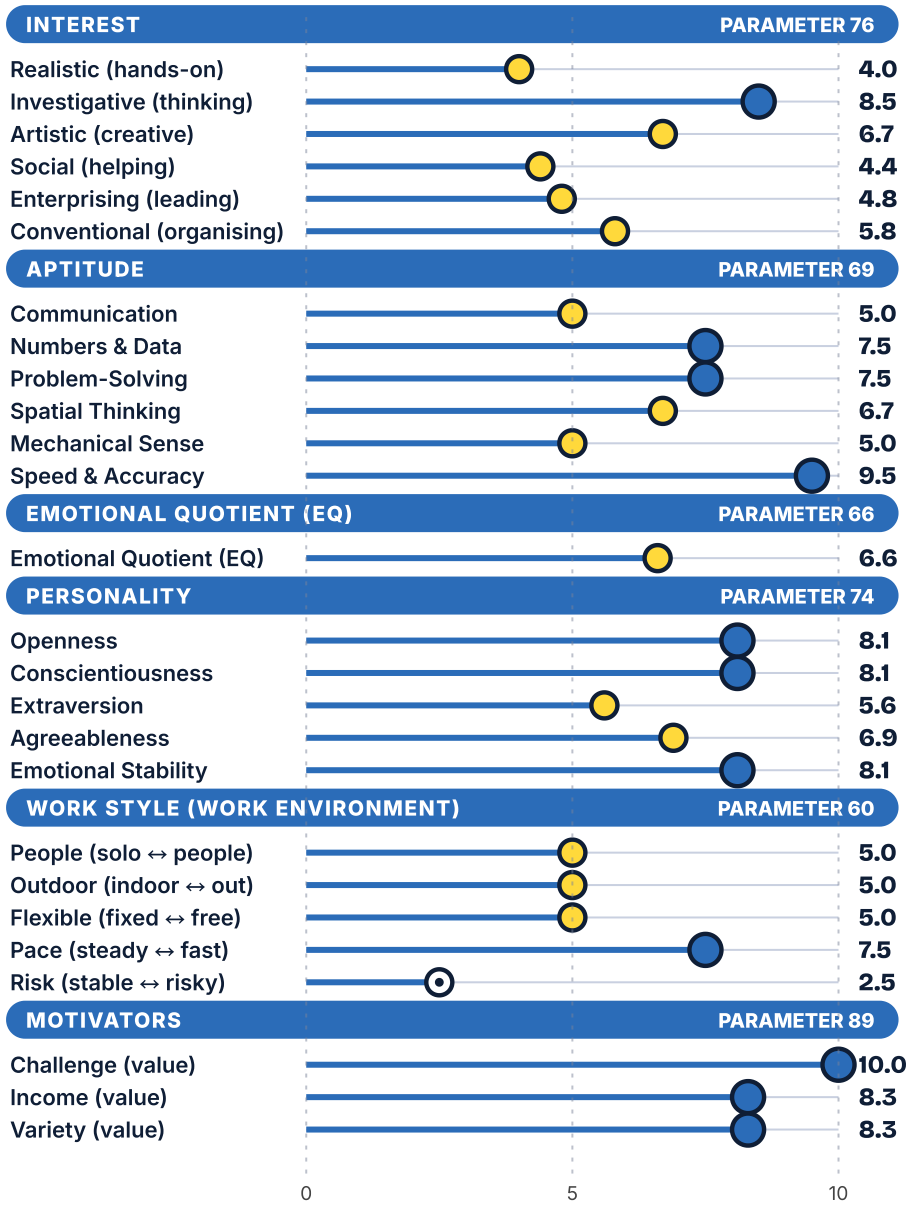

Notes on Riya · Graduate

psychometrictest.ai
by CareerGuide.com

Grouped by the six assessed parameters. Scores out of 10.

26 DIMENSIONS

Strong 7.5+ · Typical 4–7.4 · Quiet <4

THE PICTURE IN ONE LINE

Original Thinker (Investigative + Artistic, code IA): curious, imaginative, even-energy, fast and precise. Values: Challenge · Income · Variety.

INTEREST SPREAD

4.5 (Investigative 8.5 to Realistic 4.0) — a clearly differentiated profile.

CONFIDENCE FLAGS

No extreme flags; profile is consistent. Say-vs-do check: aligned.

HONEST WEAK-FIT NOTE

Realistic (4.0) is the lowest interest. Shown only to the counsellor. Careers leaning on it will feel like swimming upstream.

WORK STYLE IS THE GROWTH EDGE

Work Style 60 with Risk (stable ↔ risky) 2.5: the setting matters more than the title — check it on pp. 3–4.

CHECK-INS

Start now — did the conversation happen?
Keep going — did the experiment get finished?

PLEASE REMEMBER

Not a diagnosis, a stream mandate, or a ranking against peers. One input among several. Parameter scores (76/69/66/74/60/89) are composites of the scores on this page.

THREE CONVERSATION PROMPTS

1
When you imagine yourself at work in 10 years, what does a normal Tuesday look like?

2
Which route matters most for your top career, and by when?

3
You chose Challenge, Income, Variety — which career on your list honours all three?
