CAREER REPORT · WORKING PROFESSIONAL EDITION

Ideal Career Test™

AI-Era Edition

13 Career Families | 47 Sectors | 1,340 Careers

PREPARED FOR

Arjun Mehta (Sample)

STAGE	DATE	REPORT ID
Working professional	8 Nov 2026	CT26-SAMPLE14

TODAY'S SCORES ARE BUILT ON 6 ASSESSED PARAMETERS

- **Interest** — What pulls you
- **Aptitude** — What you can do
- **Personality** — How you naturally work
- **Emotional Quotient (EQ)** — How you read people
- **Work Style (Work Environment)** — Where and how you work best
- **Motivators** — What drives you

WHY THIS REPORT, FOR A PROFESSIONAL

Also inside: parents p. 16 · counsellor notes p. 17 · more careers to explore · Appendix A at the back

STEP 1 · pp. 2–4
See your top careers
Families, sectors and careers, with tags

STEP 2 · pp. 5–10
Know yourself
6 parameters, one clear profile

STEP 3 · pp. 11–14
Explore, then move
1,340 careers, then switch or grow

STEP 4 · p. 15
Take action
Clear next steps for you, your parents and your counsellor

HOW IT HELPS

one report, three readers

STUDENT

- **Prepare well in advance** — Start years early, not weeks
- **Know strengths & careers** — See what fits you, with proof
- **Pick activities and hobbies** — Extracurriculars that fit you
- **Choose exams and stream** — Competitive exams that suit you

PARENT

- **Guide with facts** — Back your advice with data
- **Know what to support** — ...and exactly when to step in
- **Plan budget and routes** — Costs, entry exams, backups
- **Calmer conversations** — Informed talks, fewer fights

COUNSELLOR

- **Guide with evidence** — Scores and fit % to point to
- **Keep them motivated** — Strengths-first talking points
- **Spot mismatches early** — Flag gaps before choices lock
- **Track progress** — Compare at next year's retake

INTERPRETATION NOTE

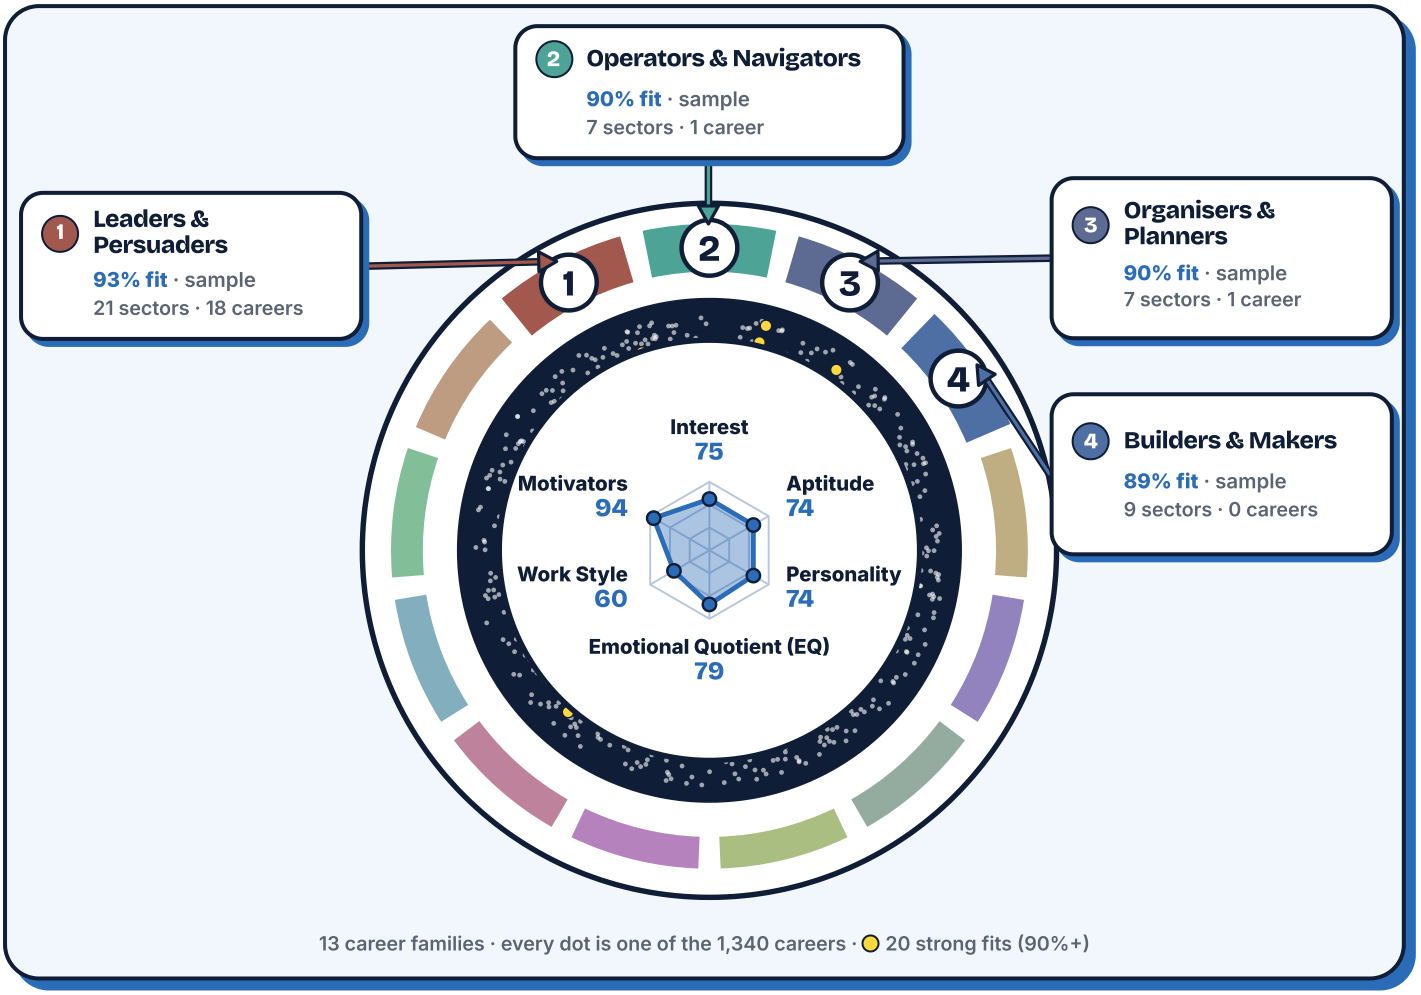

Results are indicative estimates of tendencies at the time of testing, not a diagnosis or a prediction. Scores carry measurement error and change with age and experience. The student is free to disagree with any result and discuss it with their counsellor or parents. Retaking next year is recommended.

Retake in a year. Compare two reports side by side and see what has grown.

Arjun's result at a glance

psychometrictest.ai
by CareerGuide.com

Your top 4 families, their sectors and your six-parameter profile. Sample student; sample scores.

SECTORS IN YOUR 4 STRONGEST FAMILIES

31 sectors · 20 careers on pp. 3–4

1
- Business Management & Strategy
- Sales, Retail & E-commerce
- Entrepreneurship & Startups
- Government & Civil Services
- Infrastructure & Real Estate
- +16 more · p. 12

2
- Government & Civil Services
- Supply Chain & Logistics
- Aviation
- Engineering & Core Technology
- Space Economy & Settlement
- Space & Frontier Tech
- Robotics, Drones & Automation

3
- Government & Civil Services
- Law, Policy & Governance
- Finance, Commerce & FinTech
- AI Ethics & Governance
- Blockchain, Crypto & Web3
- Cybersecurity & Digital Trust
- Environment & Planetary Engineering

4
- Infrastructure & Real Estate
- Green Energy & Climate
- Environment & Planetary Engineering
- Allied Health & Paramedical
- Engineering & Core Technology
- Space Economy & Settlement
- Space & Frontier Tech
- Robotics, Drones & Automation
- +1 more · p. 12

Numbers match the ring. Dot shade: darker = stronger sector fit (p. 12). A sector shared by two families appears under each.

Fit % weights: Interest 30%, Aptitude 30%, Personality 10%, EQ 10%, Work Style 10%, Motivators 10%. Indicative, not final.

Arjun's ideal careers · by family

psychometrictest.ai
by CareerGuide.com

Top careers in your 3 strongest families. Filled numbers are your Top 10.

ERA: Evergreen · Traditional · Internet-era · Cutting-edge — how new the career is
AI IMPACT: AI-Safe · AI-Assisted · AI-Reshaped · AI-native · At risk
ENTRY: Credential · Skill · Experience-gated · Talent — the gate you pass through
SETTING: Office · Field · People · Clinic · Lab · Studio + combinations — where the work happens

#	CAREER	FIT	ERA	AI IMPACT	ENTRY	SETTING
Leaders & Persuaders						24 careers · mostly AI-Assisted (19 of 24)

Arjun's Interest

psychometrictest.ai
by CareerGuide.com

75 / 100

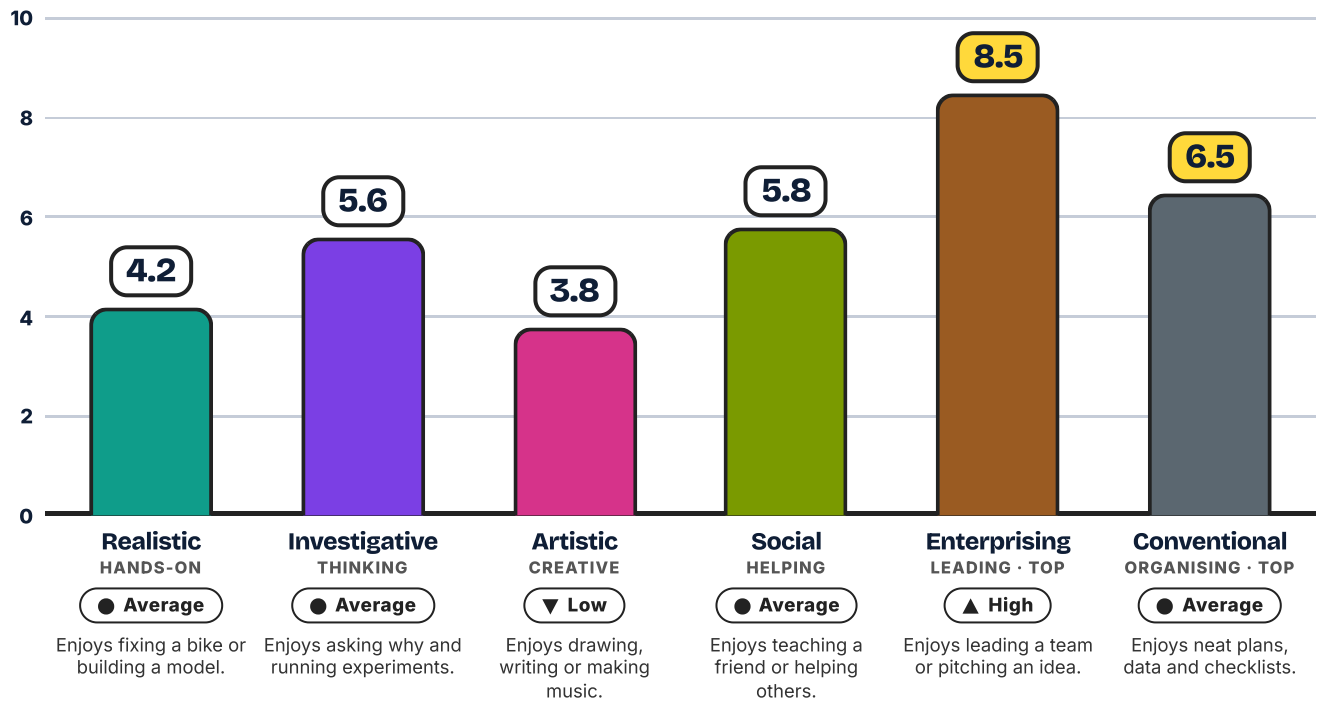

PARAMETER 1 OF 6 · WHAT PULLS YOU

▲ HIGH · VERY CLEAR SAMPLE SCORE

Your interests tend to point towards leadership-led, organised work.

YOUR INTEREST PROFILE · SIX RIASEC TYPES

Scale 0–10 SAMPLE SCORES

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Low is not bad: it shows what you enjoy less. Top two = your code, **EC**.

IN THE AI ERA

AI

●●●●○ High

Importance in the AI era · indicative

- Curious people keep learning new tools.
- An interest in building with technology fits AI-Augmented work.

YOUR AI READINESS

●●● Ready SAMPLE

Enterprising 8.5 and Conventional 6.5 suggest you'll enjoy leading projects that use AI tools.

WHAT IT IS

Interest is what you naturally enjoy doing and want to do more of.

In one line: Interest is your compass.

WHY IT MATTERS

- People tend to stay longer in work they find interesting.
- It points to the career families and sectors worth exploring first.
- It helps you pick electives, clubs and projects.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Run a club event, stall or small fundraiser.
- Join a debate, MUN or business-ideas club.
- Keep the accounts or records for a club or event.
- Try one activity from a type you scored low, just to compare.

STUDENT
Pick activities that match your top two types.

PARENT
Offer tools and projects, not pressure.

COUNSELLOR
Compare the top two types with school choices.

Arjun's Aptitude

psychometrictest.ai
by CareerGuide.com

74 / 100

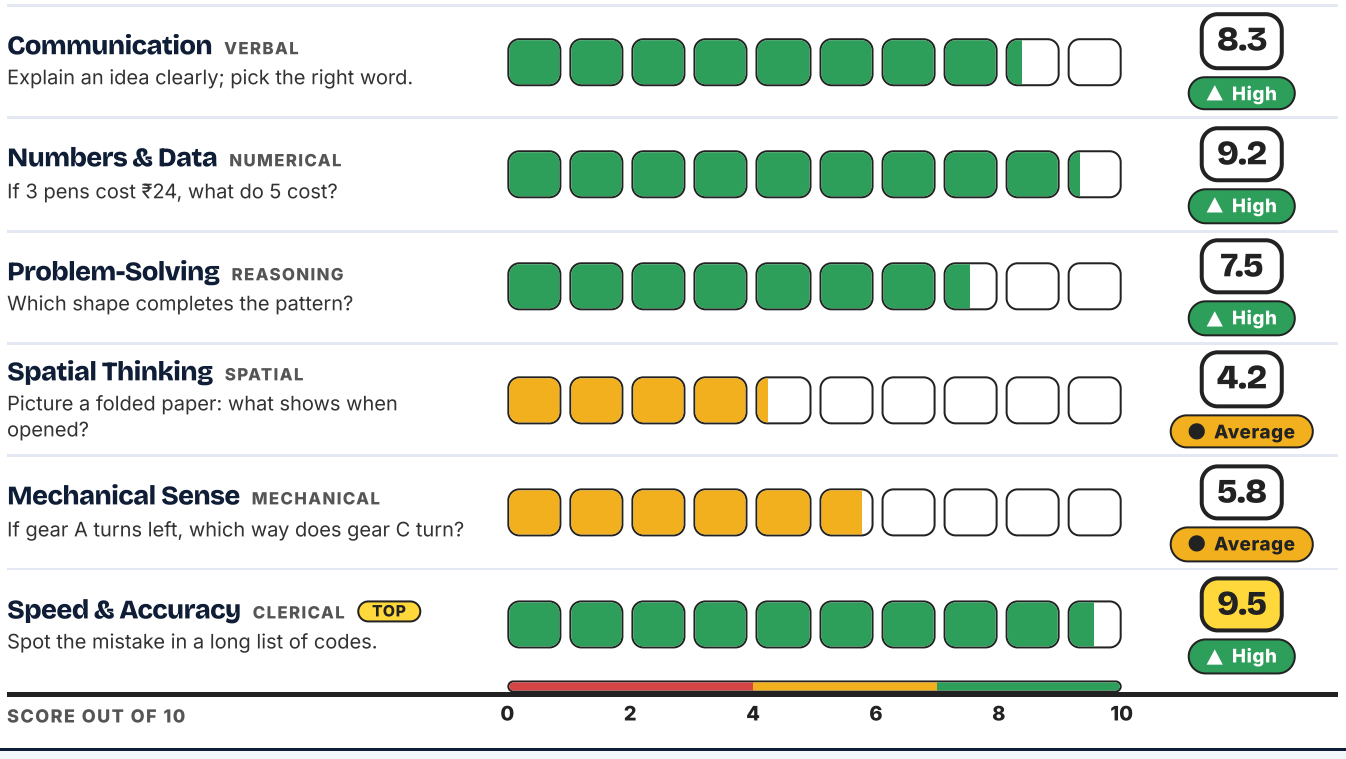

PARAMETER 2 OF 6 · WHAT YOU CAN DO

▲ HIGH · SAMPLE SCORE

Your abilities suggest a strong base, with speed and accuracy standing out.

YOUR APTITUDE PROFILE · SIX ABILITIES

Scale 0–10 · SAMPLE SCORES

LEVEL ▼ Low 0–4 room to grow · ● Average 4–7 building · ▲ High 7–10 strength

Each block = 1 point. Think of each row as a level to build, not a limit.

IN THE AI ERA

AI

Very high

Importance in the AI era · indicative

- Reasoning and problem-solving matter most.
- AI automates routine number and clerical tasks: build analytical, spatial and mechanical reasoning.

YOUR AI READINESS

Ready · SAMPLE

Speed & Accuracy 9.5 is what AI automates; lean on Problem-Solving 7.5.

WHAT IT IS

Aptitude is what you can do well right now, and how fast you pick up new skills. It is about ability, not marks.

In one line: Aptitude is your engine.

WHY IT MATTERS

- It shows where learning will feel easier.
- It helps you choose subjects: maths-heavy or language-heavy.
- Abilities grow with practice; a retake shows it.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Do a logic, number or pattern puzzle now and then.
- Build with gears, circuits or simple CAD.
- Try a past Olympiad or a practice aptitude paper.
- Practise timed tasks to build speed and accuracy.

STUDENT

Treat each bar as a level to build, not a limit.

PARENT

Praise the method, not just the marks.

COUNSELLOR

Match any gap to subject support.

Arjun's Personality

psychometrictest.ai
by CareerGuide.com

74
/ 100

PARAMETER 3 OF 6 · HOW YOU NATURALLY WORK

▲ HIGH · STEADY SAMPLE SCORE

Your style tends to be steady.

YOUR PERSONALITY PROFILE · FIVE TRAITS

Scale 0–10 SAMPLE SCORES

Openness	**Higher:** Tries new methods and ideas. **Lower:** Prefers proven, familiar ways.	LOW · AVERAGE · HIGH	7.5	▲ High
Conscientiousness	**Higher:** Plans ahead and finishes tasks. **Lower:** Works flexibly, in bursts.	LOW · AVERAGE · HIGH	7.5	▲ High
Extraversion	**Higher:** Gets energy from groups and talk. **Lower:** Recharges alone; quiet focus.	LOW · AVERAGE · HIGH	6.2	● Average
Agreeableness	**Higher:** Cooperates and avoids conflict. **Lower:** Direct; questions and challenges.	LOW · AVERAGE · HIGH	6.9	● Average
Emotional Stability STANDS OUT	**Higher:** Stays calm when plans change. **Lower:** Feels stress strongly; plans more.	LOW · AVERAGE · HIGH	8.8	▲ High

SCORE OUT OF 10: 0 2 4 6 8 10

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Low is not bad: it shows what you prefer less. Clues to how you like to work, never a label.

IN THE AI ERA

AI

●●●●○ High

Importance in the AI era · indicative

- Openness and adaptability help when work keeps changing.
- Roles that AI is transforming reward people who adjust fast.

YOUR AI READINESS

●●● Ready SAMPLE

Emotional Stability 8.8 suggests you stay calm as tools change; that helps in AI-era work.

WHAT IT IS

Personality is your usual way of thinking, working and reacting.

In one line: Personality is your driving style.

WHY IT MATTERS

- It explains how you like to work, not how well.
- It helps you choose team or solo roles.
- It shows what drains you and what recharges you.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Notice which tasks leave you energised or drained.
- Try one new hobby outside your comfort zone.
- Lead one small task and ask teammates how it felt.

STUDENT

Choose study and work modes that suit your style.

PARENT

Let calm be a strength, not a reason to skip check-ins.

COUNSELLOR

Discuss high-pressure roles against Emotional Stability 8.8.

Arjun's Emotional Quotient (EQ)

psychometrictest.ai
by CareerGuide.com

79 / 100

PARAMETER 4 OF 6 · HOW YOU READ PEOPLE

▲ HIGH · STRONG SAMPLE SCORE

You tend to stay calm under pressure.

YOUR EQ PROFILE · FOUR PARTS

Scale 0–10 SAMPLE SCORES

Self-awareness — ▲ High

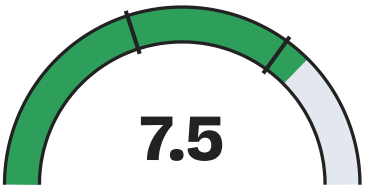

Higher: Names "I am nervous before exams".
Still growing: Feels tense without knowing why.

Handling pressure — STRONGEST — ▲ High

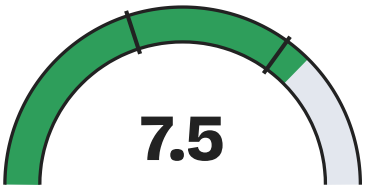

Higher: Stays steady when a deadline moves.
Still growing: Freezes or rushes when plans change.

Empathy — ▲ High

Higher: Senses a friend is upset unprompted.
Still growing: Misses signals; reads only words.

Persistence — ▲ High

Higher: Keeps going after a bad test result.
Still growing: Gives up when a task gets hard.

LEVEL ▼ Low 0–4 room to grow · ● Average 4–7 building · ▲ High 7–10 strength

EQ is a skill: it grows with practice and feedback. Average of the four parts = 7.9.

IN THE AI ERA

AI — Very high

Importance in the AI era · indicative

- Empathy, people skills and handling pressure are the hardest for AI to copy.
- They tend to stay valuable as AI spreads.

YOUR AI READINESS

Ready SAMPLE

Handling pressure 8.5 is a strength, and people skills are what AI copies least.

WHAT IT IS

Emotional Quotient (EQ) is how well you notice, understand and manage feelings: yours and other people's.

In one line: EQ is your steering with people.

WHY IT MATTERS

- Teams and clients rely on people who read others well.
- It helps in interviews, group work and exams.
- It can be practised, unlike a fixed trait.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Do a group project and ask for honest feedback.
- Practise listening: repeat what a friend said before replying.
- Join peer mentoring or a buddy programme.
- Pause, name the feeling, then respond.

STUDENT
Pause, name the feeling, then respond.

PARENT
Talk about feelings without rushing to fix them.

COUNSELLOR
Use role-play to practise empathy.

Arjun's Work Style (Work Environment)

psychometrictest.ai
by CareerGuide.com

60 / 100

PARAMETER 5 OF 6 · WHERE AND HOW YOU WORK BEST

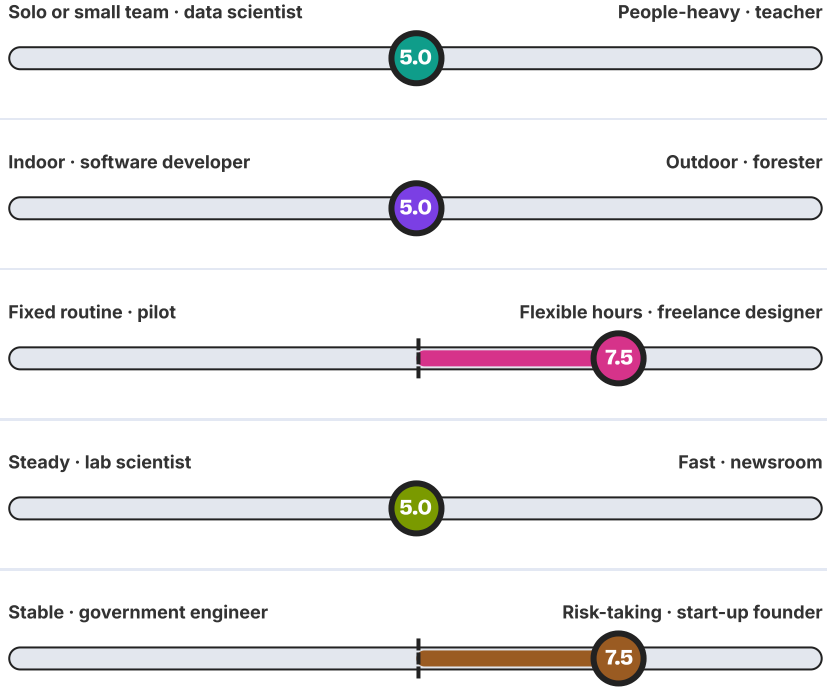

● AVERAGE · FLEXIBLE · BOLD SAMPLE SCORE

You tend to prefer flexible hours, some risk and business or office settings.

YOUR WORK STYLE · FIVE CHOICES

Scale 0–10 SAMPLE SCORES

People Who you work with	Solo or small team · data scientist	People-heavy · teacher	● Average
Outdoor Where you work	Indoor · software developer	Outdoor · forester	● Average
Flexible STANDS OUT How your day is set	Fixed routine · pilot	Flexible hours · freelance designer	▲ High
Pace How fast it moves	Steady · lab scientist	Fast · newsroom	● Average
Risk STANDS OUT How much uncertainty	Stable · government engineer	Risk-taking · start-up founder	▲ High

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Preferred settings Business · Office · Classroom **Low is not bad:** it shows what you prefer less. No right answer.

IN THE AI ERA

AI ●●●○○ Medium

Importance in the AI era · indicative

- Suits human + AI teamwork: data and tools, people, or field work.
- Pace and adaptability help when work keeps changing.

YOUR AI READINESS

●●○ Building SAMPLE

Flexible 7.5 suggests flexible, project-based work, which AI tools make easier.

WHAT IT IS

Work Style (Work Environment) is the kind of working day that suits you: with whom, where, and at what pace.

In one line: Work Style is the road you prefer.

WHY IT MATTERS

- The same job title can feel very different day to day.
- It helps you avoid a job that wears you out.
- It guides internships and first-job choices.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- Visit a lab, workshop or farm and note how the day feels.
- Join a field club: nature, astronomy or robotics.
- Watch day-in-the-life videos of two careers.

STUDENT
Imagine a normal working day, not just a job title.

PARENT
Ask about the workplace, not only the marks.

COUNSELLOR
Compare settings and pace across careers.

Arjun's Motivators

psychometrictest.ai
by CareerGuide.com

94 / 100

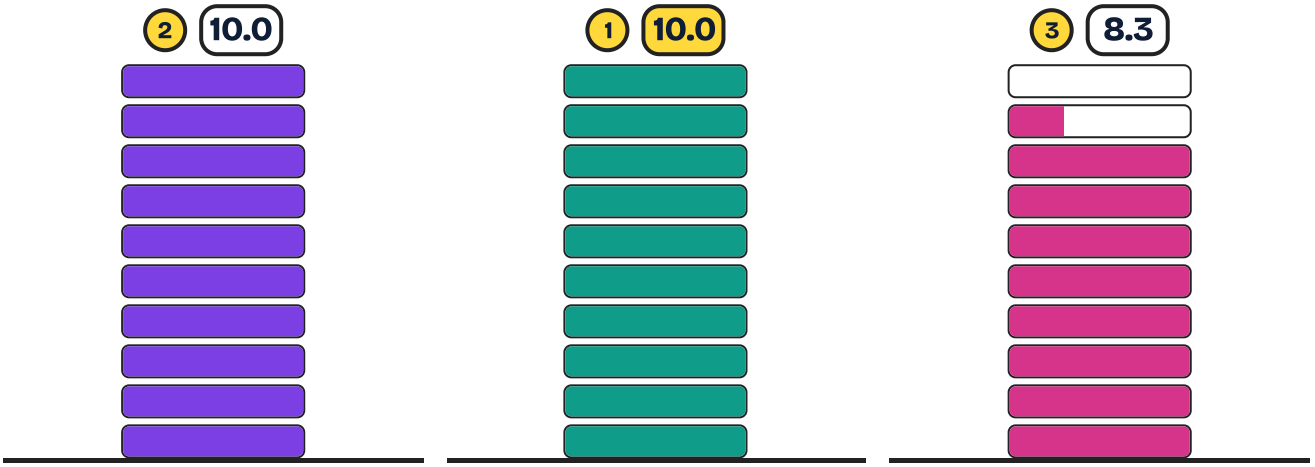

PARAMETER 6 OF 6 · WHAT DRIVES YOU

▲ HIGH · CLEAR DRIVERS SAMPLE SCORE

Income, Respect and Leadership suggest what you may want from work.

YOUR MOTIVATORS · TOP THREE OF TEN

Scale 0–10 SAMPLE SCORES

Respect RECOGNITION
▲ High
Wants credit and standing for the work.

Income EARNING
▲ High
Wants strong earnings.

Leadership LEADING OTHERS
▲ High
Wants to guide a team and make

NOT IN YOUR TOP THREE

- **Stability** — SECURITY — 3.3 · LOW
- **Variety** — MIXED — NEW EACH DAY — 3.3 · LOW
- **Balance** — TIME FOR LIFE — 3.3 · LOW
- **Helping** — IMPACT — 3.3 · LOW
- **Independence** — OWN CALLS — 1.7 · LOW
- **Passion** — LOVE OF WORK — 1.7 · LOW
- **Challenge** — LEARNING — 0.0 · LOW

LEVEL ▼ Low 0–4 ● Average 4–7 ▲ High 7–10

Low is not bad: it shows what matters less to you. Each block = 1 point.

Everyone's top three differ; none is better. Mixed = your two answers disagreed.

IN THE AI ERA

AI

●●●○○ Medium

Importance in the AI era · indicative

- Challenge and learning drivers sustain reskilling.
- If Stability matters most to you, plan for change.

YOUR AI READINESS

Ready SAMPLE

Income 10.0 can push you to learn in-demand skills.

WHAT IT IS

Motivators are what you want from work beyond the job title: the things that make a career feel worth it.

In one line: Motivators are your destination.

WHY IT MATTERS

- It explains why a "fitting" career can still feel wrong.
- It helps you say no to a mismatch.
- It gives you words to explain choices to parents.

TRY THIS · ACTIVITIES YOU WILL ENJOY

- List your top three drivers before choosing electives.
- Compare two options on your top driver.
- Ask two working adults what they enjoy and miss.

STUDENT

Rank your drivers before you pick a career.

PARENT

Ask what the career gives back, not only pay.

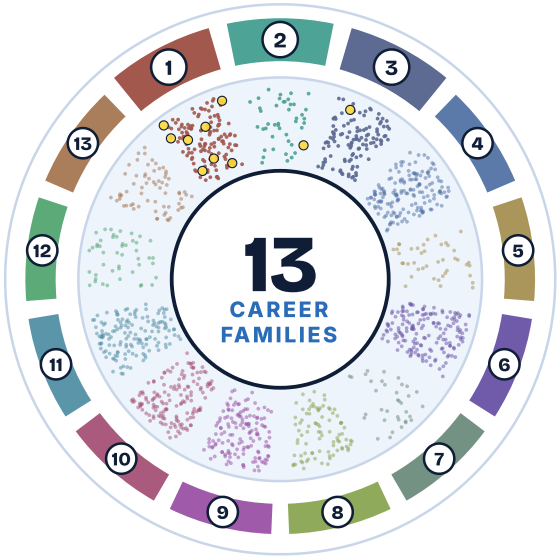

COUNSELLOR

Revisit the drivers at the next retake.

Arjun's 13 career families

psychometrictest.ai
by CareerGuide.com

Every career belongs to one of 13 families. Each coloured arc is one family, numbered by your fit; the same colour follows the family through the whole report.

Numbered arcs = the 13 families · thick = your top 3
Dots = all 1,340 careers · yellow = your Top **10**

	FAMILY · BY YOUR FIT	FIT · SAMPLE	SECTORS	CAREERS
1	Leaders & Persuaders	93%	5	137
2	Operators & Navigators	90%	2	43
3	Organisers & Planners	90%	2	116
4	Builders & Makers	89%	8	162
5	Hosts & Experience-Makers	89%	2	42
6	Investigators & Analysts	88%	6	165
7	Protectors & Responders	87%	1	35
8	Educators & People-Developers	87%	3	87
9	Creators & Communicators	87%	6	143
10	Carers & Healers	86%	3	152
11	Digital & Systems Builders	85%	6	145
12	Growers & Nature Stewards	85%	1	47
13	Performers & Competitors	85%	2	66

YOUR TOP 3 FAMILIES

1 Leaders & Persuaders — 93%

Drive to lead + a way with words: selling ideas and making things happen.

2 Operators & Navigators — 90%

Hands-on drive + a spatial eye: the machines that move the world.

3 Organisers & Planners — 90%

Love of order + speed with detail: money, records and systems kept right.

PICKED BY INTEREST Your Interest score sorts the 13 families first. Family fit % = average of its 10 best careers (sample student). The spread is only 8 points (85–93%), so **nothing is ruled out**.

Next: zoom in → Your top 3 families hold 9 of the 47 sectors — Leaders 5, Operators 2, Organisers 2. Page 12 lists every sector under its family, with your fit shade.

Arjun's families and 47 sectors

psychometrictest.ai
by CareerGuide.com

Find a family by its colour and number, then read its sectors. Nothing is closed to you: this is the whole map.

HOW TO DECIDE — THREE QUESTIONS FOR THE FAMILY TABLE

1

Which of these fields would you move towards in the next 2–3 years? Your data points to Commerce — the choice is yours.

2

Can you grow into it from your current role, or does it need a switch? Map the gap before you move.

3

Are you choosing for you, not because a colleague did? Talk it through with a mentor, then decide.

DO THIS MONTH Pick your top career, list the skills it needs that you lack, and start one course or project.

Arjun's road and action plan

psychometrictest.ai by CareerGuide.com

One path from your current role to the career that fits, then what to do next.

THE ROAD IN

	1 Current role (YOU ARE HERE)	2 Skill gap	3 Course / certification	4 Side project	5 Switch or promotion	6 Senior role
Science (PCM)	Map the gap	Part-time M.Tech / certification	Build one project	Lateral move or promotion	Specialist or lead role
Science (PCB)	Map the gap	Clinical / lab certification	Volunteer or shadow a role	Lateral move or promotion	Specialist or lead role
Commerce	Map the gap	Executive MBA / CA / CFA	Lead one initiative	Lateral move or promotion	Specialist or lead role
Arts / Humanities	Map the gap	PG diploma / UPSC prep	Publish or volunteer	Lateral move or promotion	Specialist or lead role

- Every route has a low-fee, merit-based way in: government colleges, state universities, polytechnics, ITIs.

Routes are indicative and the same for every student. Check each exam's official site for current details.

AI BUILD AI SKILLS ALONG THE WAY

Current role
Use AI on your real work. Check every output yourself.

Course
Do one AI course or project this year.

Side project
Build one thing with AI. Keep a small portfolio.

Next role
Keep the judgement human. Learn one new AI tool a year.

DO · HOBBIES AND ACTIVITIES

+ **Pick one hobby and stay with it**
  Depth beats trying everything.
+ **Join one school activity**
  Club, sport, debate, competition. Builds teamwork.
+ **Turn a hobby into a small project**
  It builds a portfolio for admissions and internships.

DON'T · HOBBIES AND ACTIVITIES

× **Join everything for the certificate**
  One or two done well beat ten done lightly.
× **Drop hobbies for marks alone**
  They build skills and confidence marks don't show.
× **Treat a hobby as wasted time**
  Practice builds focus and confidence.

YOUR NEXT TWO STEPS · BOTH SMALL

- **One skill gap.** Write down the three skills your top career needs that you lack.
- **One real conversation.** Talk to someone doing the job. Ask what a normal Tuesday looks like.

THEN, WITH CAREERGUIDE

- **Explore courses.** Counselling for executive programmes, certifications and a switch.
- **Talk to a counsellor.** Booked separately. Bring this report.
- **Retake in a year.** Same phone number links reports (ID CT26-SAMPLE14).

Remember This report is a map, not a verdict. Interests grow and change. Retake it in a year and see how your Top 10 (p. 3) moves.

For Arjun's manager or mentor

How to support Arjun · Working professional

THE REPORT IN THREE POINTS

- **Arjun's strengths:** Arjun enjoys leading and persuading and organising and getting details right, and is quick and careful with detail and fast and accurate with numbers.
- **What energises Arjun:** A mix of desk and field work with a few people at a varied pace. Income, respect and leadership matter most to Arjun.
- **Where support helps:** Arjun is even and adaptable, so a steady routine helps. Working through disagreements is still growing.

DO

+ Praise effort and curiosity by name, not only results.
+ Listen first. Let Arjun finish before you advise.
+ Give Arjun time to think before answering.
+ Help Arjun map the gap to the top career; let Arjun own the move (**p. 14**).

SUPPORT

- Keep leading going: running a team, a side venture, an event.
- Try a pitch contest, a Toastmasters club or a founders' circle.
- Visit a small business or start-up to see the work up close.
- Make room for group projects and talking ideas through.

AVOID

× Comparing Arjun with friends or colleagues.
× Pushing one path because "everyone moves into data".
× Treating the report as a verdict or a label.
× Ruling out a career before you have read about it together.

QUESTIONS TO ASK

- What did you enjoy leading or organising lately?
- Which of your top careers surprises you most?
- What would a normal Tuesday look like in that job?
- What would you like me to help with, and what not?

AI PREPARE FOR THE AI ERA TOGETHER

- **Where Arjun stands:** ready on interest, aptitude, personality, EQ and motivators; Work Style building.
- Practise problem-solving: puzzles, logic games, a past aptitude paper.
- Build people skills: group projects, peer mentoring, talking through a disagreement.
- Learn one AI tool together and use it to make something, not to copy answers.
- Read the AI tags on Arjun's careers together (**pp. 3–4**) and ask what stays human.

PLANNING AHEAD

- Look at routes and costs together (**p. 15**): government colleges, state universities, polytechnics, ITIs.
- Read Arjun's ideal careers (**pp. 3–4**) and more careers to explore (**Appendix A**).
- Keep a back-up course and role on the list.
- Use the action plan (**p. 15**) to choose next steps.

This report gives indicative estimates, not a diagnosis or a prediction. Arjun is free to disagree with any result. Retaking in a year will show how Arjun has grown. A CareerGuide.com counsellor can talk it through with you (**p. 17**).

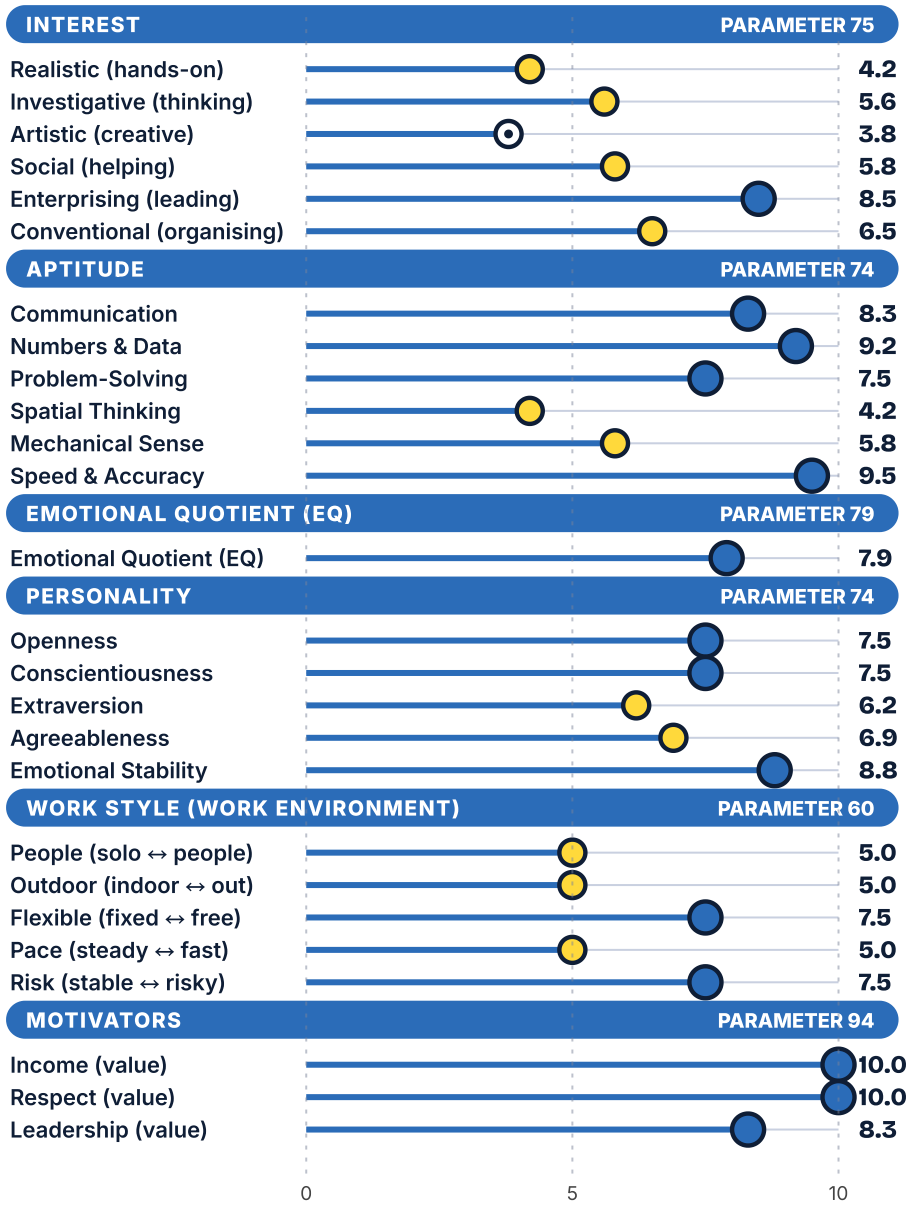

Notes on Arjun · Professional

psychometrictest.ai
by CareerGuide.com

Grouped by the six assessed parameters. Scores out of 10.

26 DIMENSIONS

Strong 7.5+ · Typical 4–7.4 · Quiet <4

THE PICTURE IN ONE LINE

Organised Leader (Enterprising + Conventional, code EC): driven, careful, even-energy, fast and precise. Values: Income · Respect · Leadership.

INTEREST SPREAD

4.7 (Enterprising 8.5 to Artistic 3.8) — a clearly differentiated profile.

CONFIDENCE FLAGS

No extreme flags; profile is consistent. Say-vs-do check: differs on Extraversion (2.5).

HONEST WEAK-FIT NOTE

Artistic (3.8) is the lowest interest. Shown only to the counsellor. Careers leaning on it will feel like swimming upstream.

WORK STYLE IS THE GROWTH EDGE

Work Style 60 with People (solo ↔ people) 5.0: the setting matters more than the title — check it on pp. 3–4.

CHECK-INS

Start now — did the conversation happen?
Keep going — did the experiment get finished?

PLEASE REMEMBER

Not a diagnosis, a stream mandate, or a ranking against peers. One input among several. Parameter scores (75/74/79/74/60/94) are composites of the scores on this page.

THREE CONVERSATION PROMPTS

1
When you imagine yourself at work in 10 years, what does a normal Tuesday look like?

2
Which skill gap matters most for your top career?

3
You chose Income, Respect, Leadership — which career on your list honours all three?
