DAYS 61–90 → Numerical Reasoning

How to read this report

"Ahead of 43 in 100"
How many students out of 100 in Class 12 this result is ahead of.

"Top 6%"
Only about 6 of every 100 Class 12 students scored higher.

"Likely range"
From one sitting, the true level almost certainly falls inside that range.

Strip & marker

Where you sit today, from "room to grow" to "strong".

The 7 bands

Exceptionally high · Very high · Above average · Average (upper half) · Average (lower half) · Developing · Still emerging

Zone tags & colours

STRENGTH · SOLID · FOCUS AREA — Each brain zone keeps its own colour on every page.

01 · THE SCORE, EXPLAINED

01 Aditya Menon (Sample) — IQ Assessment — the score, explained

WHAT IS AN IQ TEST?

An IQ (Intelligence Quotient) cognitive test is a standardized assessment designed to measure a person's mental capabilities, reasoning skills, and intellectual potential relative to their age group.

"Cognitive" only means thinking — noticing, reasoning, remembering.

What this test measured

- **Patterns**— finding the hidden rule in a grid
- **Sequences**— working out what comes next
- **Visual detail**— spotting small differences
- **Numbers**— seeing the pattern inside numbers
- **Shapes**— turning shapes in your head
- **Memory**— holding things in mind while using them

WHAT IT DOES NOT MEASURE

Creativity · Kindness · Humour · Leadership · Effort · Curiosity · Talent

Most of what makes a person good at life is not on this page.

CAN THE SCORE CHANGE?

Yes — especially at school age, while the brain is still wiring itself. Puzzles, chess, reading, music and proper sleep all help.

Take the test again next year — and race your own score.

02 · YOUR IQ SCORE

02 Aditya Menon (Sample) — your IQ score

One number that compares your problem solving with students in your own class. The dial shows where today's score sits; the table shows what that band is called.

Such a score is attained by approximately **34.1%** of Class 12 students

Scored only against **Class 12** students

Higher than about **78 out of every 100** Class 12 students.

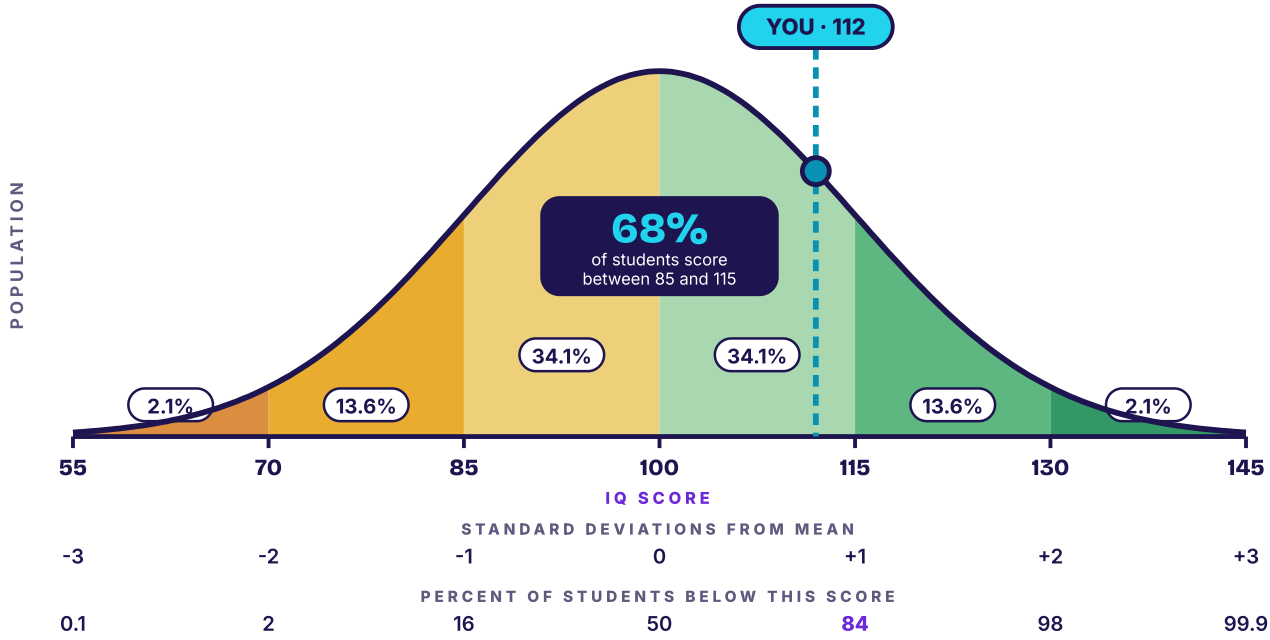

IQ SCORE CLASSIFICATION

SCORE RANGE	WHAT IT'S CALLED	HOW MANY STUDENTS
145+	Exceptionally high	0.1%
130–144	Very high	2.1%
115–129	Above average	13.6%
100–114 ← you	Average (upper half)	34.1%
85–99	Average (lower half)	34.1%
70–84	Developing	13.6%
under 70	Still emerging	2.3%

03 · WHERE YOU STAND

03 Aditya Menon (Sample) — where you stand — the bell curve

Every Class 12 student sits somewhere on this curve. The tall middle is where most people are; the thin tails are the rare scores.

Your marker sits at 112, in the top 22% for Class 12.

About 68 of every 100 students land in the two middle rows — that is what "average" means: the biggest, most crowded part of the curve, not a problem to fix.

ACROSS YOUR 6 BRAIN ZONES:

4	2	0
STRENGTH	SOLID	FOCUS AREA

☆ Top 25% overall · Abstract Reasoning · top 6% · ✓ Attempted all 91 questions

04 · YOUR SCORES AT A GLANCE

04 Aditya Menon (Sample) — your scores at a glance — the formal table

The same numbers a school counsellor or psychologist would read.

SCALE	SCORE	STANDING	LIKELY RANGE	DESCRIPTOR
Overall IQ score	**112** (range 107–117)	Top 22% (78th percentile)	Top 10%–25%	**Average (upper half)**
Abstract Reasoning STRONGEST	—	Top 6% (94th percentile)	Top 1%–10%	Above average
Logical Reasoning	—	Top 19% (81st percentile)	Top 10%–25%	Average (upper half)
Visual Perception	—	Top 32% (68th percentile)	Top 25%–50%	Average (upper half)
Numerical Reasoning	—	Top 23% (77th percentile)	Top 10%–25%	Average (upper half)
Spatial Reasoning	—	Top 11% (89th percentile)	Top 10%–25%	Above average
Working Memory TO WORK ON	—	Ahead of 43 in 100 (43rd percentile)	Top 50%–75%	Average (lower half)

HOW TO READ "STANDING"

"Top 9%" means only about 9 of every 100 Class 12 students scored higher. "Likely range" is the honest version — from one sitting, the true level almost certainly falls inside that range. Any test is a one-day snapshot; sleep, mood and surroundings move it.

05 · YOUR 6 BRAIN ZONES

05 Aditya Menon (Sample) — your 6 brain zones

Each zone is scored separately against your own class. The marker shows where you sit today, and the strip runs from "room to grow" on the left to "strong" on the right.

ABSTRACT REASONING

94 ahead of 94 in 100

ROOM TO GROW — STRONG

Spotting the hidden rule inside a grid of shapes — the classic "which figure comes next" puzzle.

VISUAL PERCEPTION

68 ahead of 68 in 100

ROOM TO GROW — STRONG

Noticing tiny differences and details that most people scan straight past.

SPATIAL REASONING

89 ahead of 89 in 100

ROOM TO GROW — STRONG

Rotating and folding shapes in your head without touching them.

112

IQ SCORE · CLASS 12

LOGICAL REASONING

81 ahead of 81 in 100

ROOM TO GROW — STRONG

Working out what comes next in a series and why — logic that moves in a line.

NUMERICAL REASONING

77 ahead of 77 in 100

ROOM TO GROW — STRONG

Finding the pattern inside numbers — not calculation speed, but number sense.

WORKING MEMORY

43 ahead of 43 in 100

ROOM TO GROW — STRONG

Holding several things in mind at once while doing something with them.

Each number is how many students out of 100 in Class 12 this result is ahead of. The six abilities are measured by the questions answered — this is not a map of the brain, and no part of a score belongs to a part of the head.

06 · SUPERPOWER AND LEVEL-UP ZONE

06 Aditya Menon (Sample) — your superpower and your level-up zone

SUPERPOWER

Abstract Reasoning

Abstract Reasoning — your highest score today: Top 6% of Class 12.

In plain words: spotting the hidden rule inside a grid of shapes — the classic "which figure comes next" puzzle.

Use it: choose projects, subjects and hobbies where this shines — Mathematics, physics, coding, chess, and any exam with reasoning sections.

In everyday life: In real life this is the skill behind noticing that a maths problem is the same type you solved last week, or that a story is heading somewhere familiar.

Keep it sharp: Mixed matrix sets at exam pace — ten in ten minutes — a strength left alone drifts back toward the middle.

LEVEL-UP ZONE

Working Memory

Working Memory — your lowest score today (still ahead of 43 in 100 of Class 12). Not a weakness — simply the ability where practice pays fastest.

Why it matters: This is the skill behind mental arithmetic, remembering a phone number long enough to type it, and following a long instruction without notes.

The plan: 10 minutes a day for 30 days (p. 15). Students who keep it up often move this ability up a full band by next year's test.

Start here: Span and n-back maintenance through exam season

A low zone is not a verdict on Aditya — it is simply the ability that has had the least practice so far, and the one where effort shows up fastest.

What these mean: your Superpower is simply the ability where you scored highest today. Your Level-up zone is the ability with the most room to grow — practising it gives the fastest improvement, which is why your 30-day plan targets it.

07 · ZONE BY ZONE · WHAT IT MEANS FOR YOU

This ability sits in **Above average** — compared only with Class 12 students.

16 of 16 questions answered

IN REAL LIFE

In real life this is the skill behind noticing that a maths problem is the same type you solved last week, or that a story is heading somewhere familiar.

WHAT ADITYA'S RESULT MEANS

Aditya scored higher than about 94 of every 100 Class 12 students here — Abstract Reasoning is a genuine strength to build a study style around.

Practice ideas

1. Mixed matrix sets at exam pace — ten in ten minutes
2. Rule-stacking drills: three attributes changing at once
3. Reverse-engineer patterns in data — price charts, fixture lists

Where it pays off: Mathematics, physics, coding, chess, and any exam with reasoning sections.

ZONE 2 OF 6

Spatial Reasoning

nickname: **Shape Shifter**

STRENGTH

Rotating and folding shapes in your head without touching them.

Top 11%

ROOM TO GROW — STRONG

BAND · CLASS 12

Exceptionally high	
Very high	
Above average	← Aditya
Average (upper half)	
Average (lower half)	
Developing	
Still emerging	

This ability sits in **Above average** — compared only with Class 12 students.

16 of 16 questions answered

IN REAL LIFE

This is what lets you pack a suitcase efficiently, read a map, or picture how a flat-pack turns into furniture.

WHAT ADITYA'S RESULT MEANS

Aditya is comfortably ahead of most of Class 12 in Spatial Reasoning — higher than about 89 in 100 students. Regular light practice keeps this climbing.

Practice ideas

1. Full spatial sections at exam pace
2. Multi-fold punch-hole questions
3. Rotate assemblies: predict the view from the other side

Where it pays off: Geometry, engineering, architecture, surgery, design, aviation.

ZONE 3 OF 6

Logical Reasoning

nickname: **Sequence Surfer**

STRENGTH

Working out what comes next in a series and why — logic that moves in a line.

Top 19%

ROOM TO GROW — STRONG

BAND · CLASS 12

Exceptionally high	
Very high	
Above average	
Average (upper half) ← Aditya	
Average (lower half)	
Developing	
Still emerging	

This ability sits in **Average (upper half)** — compared only with Class 12 students.

16 of 16 questions answered

IN REAL LIFE

This is the skill you use when following multi-step instructions, planning a route, or predicting the next step of an experiment.

WHAT ADITYA'S RESULT MEANS

Aditya is comfortably ahead of most of Class 12 in Logical Reasoning — higher than about 81 in 100 students. Regular light practice keeps this climbing.

Practice ideas

1. Full series sections timed — find the rule in 30 seconds
2. Nested series: a rule inside a rule
3. Project-plan a real goal backwards from the exam date

Where it pays off: Algebra, programming logic, science method, competitive exams.

ZONE 4 OF 6

Numerical Reasoning

nickname: **Number Ninja**

STRENGTH

Finding the pattern inside numbers — not calculation speed, but number sense.

Top 23%

ROOM TO GROW — STRONG

BAND · CLASS 12

Exceptionally high	
Very high	
Above average	
Average (upper half) ← Aditya	
Average (lower half)	
Developing	
Still emerging	

This ability sits in **Average (upper half)** — compared only with Class 12 students.

16 of 16 questions answered

IN REAL LIFE

This is the skill behind estimating whether a shop's discount is actually good, or sensing that an answer is far too large before you check it.

WHAT ADITYA'S RESULT MEANS

Aditya is comfortably ahead of most of Class 12 in Numerical Reasoning — higher than about 77 in 100 students. Regular light practice keeps this climbing.

Practice ideas

1. Full quant sections at exam pace, keep an error log
2. Interleaved series: two sequences woven together
3. Fermi problems: estimate anything, then check

Where it pays off: Mathematics, accountancy, economics, data work, engineering entrance exams.

Zone by zone — what it means for you

ZONE 5 OF 6

Visual Perception

nickname: **Eagle Eye**

SOLID

Noticing tiny differences and details that most people scan straight past.

Top 32%

ROOM TO GROW — STRONG

BAND · CLASS 12

Exceptionally high	
Very high	
Above average	
Average (upper half) ← Aditya	
Average (lower half)	
Developing	
Still emerging	

This ability sits in **Average (upper half)** — compared only with Class 12 students.

16 of 16 questions answered

IN REAL LIFE

This is proofreading power, the eye that catches the one wrong digit in a bill, and the ability to spot what changed in a diagram.

WHAT ADITYA'S RESULT MEANS

Aditya is in the solid middle of Class 12 for Visual Perception — ahead of about 68 in 100 students, with clear headroom to grow.

Practice ideas

1. Full visual-perception sections at exam pace
2. Find the flaw: one wrong figure in a series of eight
3. Cross-check two data tables and reconcile the differences

Where it pays off: Biology diagrams, geometry, design, medicine, quality-checking work, editing.

Zone by zone — what it means for you

ZONE 6 OF 6 · your level-up zone

Working Memory

nickname: **Memory Master**

SOLID

Holding several things in mind at once while doing something with them.

Ahead of 43 in 100

ROOM TO GROW — STRONG

BAND · CLASS 12

Exceptionally high	
Very high	
Above average	
Average (upper half)	
Average (lower half) ← Aditya	
Developing	
Still emerging	

This ability sits in **Average (lower half)** — compared only with Class 12 students.

11 of 11 questions answered · fewer questions than the other zones — read as a rough guide

IN REAL LIFE

This is the skill behind mental arithmetic, remembering a phone number long enough to type it, and following a long instruction without notes.

WHAT ADITYA'S RESULT MEANS

Working Memory is currently Aditya's biggest opportunity — ahead of about 43 in 100 Class 12 students today. The exercises below are exactly how this number moves.

Practice ideas

1. Span and n-back maintenance through exam season
2. Recall-then-verify: answer from memory before checking notes
3. Teach a topic from memory — the gaps show instantly

Where it pays off: Every subject — this is the workspace all other thinking happens in.

08 · 30-DAY WORKOUT AND 90-DAY PLAN

08 Aditya Menon (Sample) — your 30-day workout — and the 90-day path

A four-week practice plan written for you, the student, built around your level-up zone — Working Memory.

WEEK 1

Ten minutes a day of the timed version — accuracy first, speed second.

WEEK 2

Raise the difficulty: two rules at once, or one less second.

WEEK 3

Mixed set, no warm-up — start cold, the way an exam does.

WEEK 4

Full set under time, then review only what you got wrong.

How to use it: ten minutes a day, phone timer on. Each week gets slightly harder on purpose — abilities grow at the edge of comfortable. An unbroken streak beats any single long session.

Nothing to buy: paper and pencil, a deck of cards, a free puzzle app, or the puzzle page of any newspaper.

STREAK TRACKER · TICK A BOX EACH DAY

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

After 30 days — the 90-day path

Then run the same ten minutes at the next ability. Three rounds is 90 days, and by then the first has become habit.

DAYS 1–30

Working Memory

Span and n-back maintenance through exam season

DAYS 31–60

Visual Perception

Full visual-perception sections at exam pace

DAYS 61–90

 # Numerical Reasoning

Full quant sections at exam pace, keep an error log

Practice sharpens the ability itself — not a shortcut to a bigger number.

09 · YOUR GROWTH STORY

09 Aditya Menon (Sample) — your growth story

Take it again next year — this box fills with your own line.

10 · FOR PARENTS

10 Aditya Menon (Sample) — for parents — what to actually do

- **Praise the strength by name.** Say: "Your Abstract Reasoning is a real strength." Specific praise works better than "well done".
- **Do the first week together.** The 30-day plan (p. 15) takes 10 minutes a day. Sit with Aditya for the first few days, then let Aditya own it.
- **Keep puzzles fun.** They are play, not extra homework. One puzzle a day is enough.
- **Book next year's test now.** Same season next year. Then compare Aditya only with Aditya — that line matters more than today's number.
- **Two don'ts.** Don't use the score as a label. Don't compare with siblings or classmates. If anything worries you, talk to the school counsellor.
- **Tie it to the year ahead.** At Class 12 this feeds stream and entrance-exam choices — use it as one input, never the deciding one.
- **Protect sleep over extra hours.** At this age fatigue costs more marks than an extra revision hour gains.

11 · FOR THE COUNSELLOR / TEACHER

11 Aditya Menon (Sample) — for the counsellor / teacher

- **The picture in one line:** strong in Abstract Reasoning (top 6%), needs practice in Working Memory (ahead of 43 in 100). Overall: Average (upper half) for Class 12.
- **In class:** let Aditya use the strength openly — it builds confidence. Give short, easy practice tasks in Working Memory — the weekly plan (p. 15) can be used as-is.
- **Two check-ins:** ask about the practice plan on day 15 and day 30. That alone doubles follow-through.
- **What next:** add a career-interest test this year — ability plus interest gives reliable stream advice. Retest next season on the Class 12 paper.
- **Age note:** at Class 12 this is most useful beside interest and attainment data — ability alone should not drive a stream decision.
- **At this age:** map the strength to subject combinations, and treat the growth zone as exam technique, not remediation.
- **What this result does not license:** it is a screening assessment, not a diagnosis. For any clinical question, refer Aditya to a psychologist.

Next steps

Start the 30-day workout

Working Memory, ten minutes a day — p. 15.

Add a career-interest test

Pair this ability report with the Ideal Career Test™ on psychometrictest.ai.

Retest next year

Next year's paper, same season — fill in the growth story on p. 16.
