DAYS 61–90 → Numerical Reasoning

How to read this report

"Ahead of 48 in 100"
How many students out of 100 in Class 9 this result is ahead of.

"Top 4%"
Only about 4 of every 100 Class 9 students scored higher.

"Likely range"
From one sitting, the true level almost certainly falls inside that range.

Strip & marker

ROOM TO GROW — STRONG

Where you sit today, from "room to grow" to "strong".

The 7 bands

Exceptionally high · Very high · Above average · Average (upper half) · Average (lower half) · Developing · Still emerging

Zone tags & colours

STRENGTH · SOLID · FOCUS AREA — Each brain zone keeps its own colour on every page.

01 · THE SCORE, EXPLAINED

Ananya Iyer (Sample) — IQ Assessment — the score, explained

WHAT IS AN IQ TEST?

An IQ (Intelligence Quotient) cognitive test is a standardized assessment designed to measure a person's mental capabilities, reasoning skills, and intellectual potential relative to their age group.

"Cognitive" only means thinking — noticing, reasoning, remembering.

What this test measured

- **Patterns**— finding the hidden rule in a grid
- **Sequences**— working out what comes next
- **Visual detail**— spotting small differences
- **Numbers**— seeing the pattern inside numbers
- **Shapes**— turning shapes in your head
- **Memory**— holding things in mind while using them

WHAT IT DOES NOT MEASURE

Creativity · Kindness · Humour · Leadership · Effort · Curiosity · Talent

Most of what makes a person good at life is not on this page.

CAN THE SCORE CHANGE?

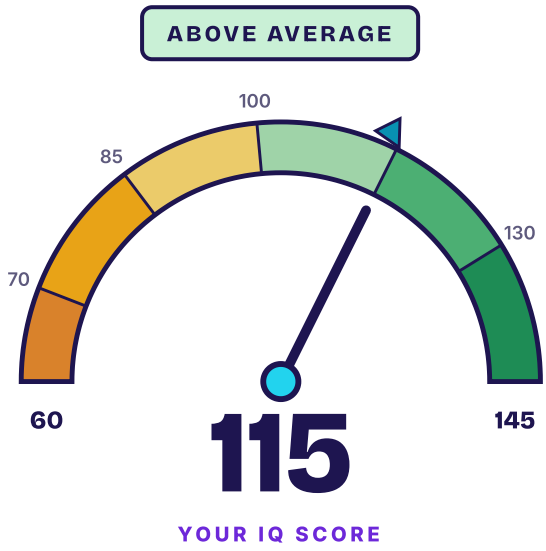

Yes — especially at school age, while the brain is still wiring itself. Puzzles, chess, reading, music and proper sleep all help.

Take the test again next year — and race your own score.

02 · YOUR IQ SCORE

02 Ananya Iyer (Sample) — your IQ score

One number that compares your problem solving with students in your own class. The dial shows where today's score sits; the table shows what that band is called.

Such a score is attained by approximately **13.6%** of Class 9 students

Scored only against **Class 9** students

Higher than about **84 out of every 100** Class 9 students.

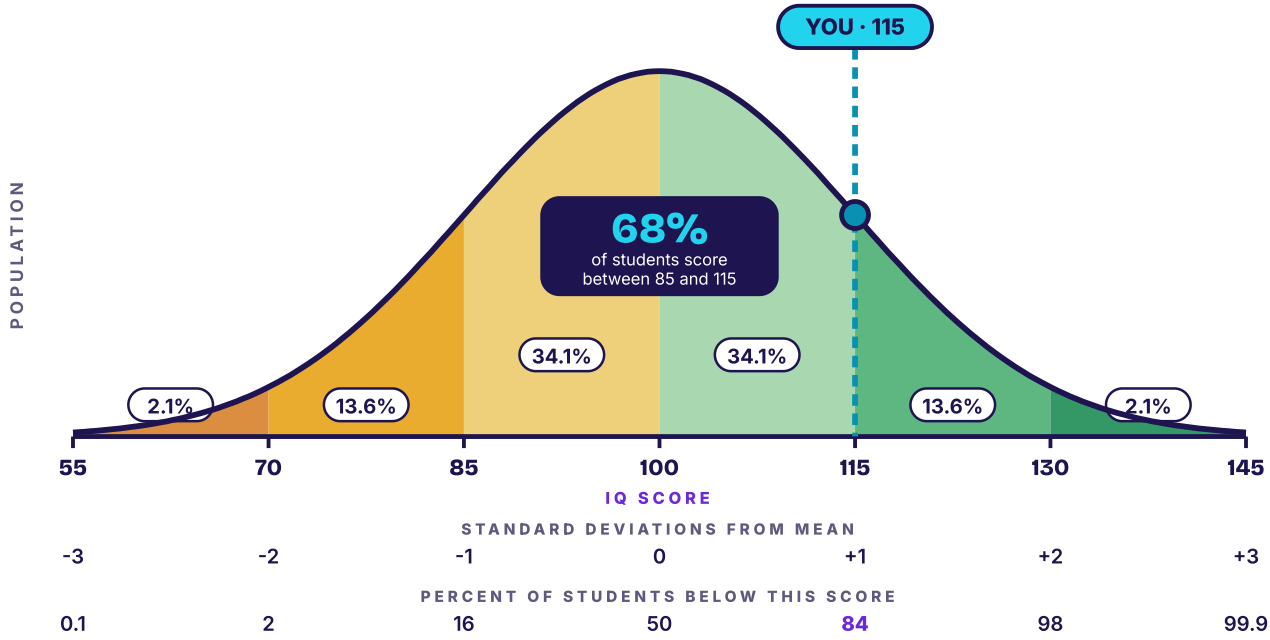

IQ SCORE CLASSIFICATION

SCORE RANGE	WHAT IT'S CALLED	HOW MANY STUDENTS
145+	Exceptionally high	0.1%
130–144	Very high	2.1%
115–129 ← you	Above average	13.6%
100–114	Average (upper half)	34.1%
85–99	Average (lower half)	34.1%
70–84	Developing	13.6%
under 70	Still emerging	2.3%

03 · WHERE YOU STAND

03 Ananya Iyer (Sample) — where you stand — the bell curve

Every Class 9 student sits somewhere on this curve. The tall middle is where most people are; the thin tails are the rare scores.

Your marker sits at 115, in the top 16% for Class 9.

About 68 of every 100 students land in the two middle rows — that is what "average" means: the biggest, most crowded part of the curve, not a problem to fix.

ACROSS YOUR 6 BRAIN ZONES:

5	1	0
STRENGTH	SOLID	FOCUS AREA

- Top 25% overall
- Abstract Reasoning · top 4%
- Logical Reasoning · top 9%
- Spatial Reasoning · top 9%
- Attempted all 91 questions

04 · YOUR SCORES AT A GLANCE

04 Ananya Iyer (Sample) — your scores at a glance — the formal table

The same numbers a school counsellor or psychologist would read.

SCALE	SCORE	STANDING	LIKELY RANGE	DESCRIPTOR
Overall IQ score	**115** (range 110–120)	Top 16% (84th percentile)	Top 10%–25%	**Above average**
Abstract Reasoning STRONGEST	—	Top 4% (96th percentile)	Top 1%–10%	Above average
Logical Reasoning	—	Top 9% (91st percentile)	Top 1%–10%	Above average
Visual Perception	—	Top 18% (82nd percentile)	Top 10%–25%	Average (upper half)
Numerical Reasoning	—	Top 18% (82nd percentile)	Top 10%–25%	Average (upper half)
Spatial Reasoning	—	Top 9% (91st percentile)	Top 1%–10%	Above average
Working Memory TO WORK ON	—	Ahead of 48 in 100 (48th percentile)	Top 50%–75%	Average (lower half)

HOW TO READ "STANDING"

"Top 9%" means only about 9 of every 100 Class 9 students scored higher. "Likely range" is the honest version — from one sitting, the true level almost certainly falls inside that range. Any test is a one-day snapshot; sleep, mood and surroundings move it.

05 · YOUR 6 BRAIN ZONES

05 Ananya Iyer (Sample) — your 6 brain zones

Each zone is scored separately against your own class. The marker shows where you sit today, and the strip runs from "room to grow" on the left to "strong" on the right.

ABSTRACT REASONING

96 ahead of 96 in 100

ROOM TO GROW — STRONG

Spotting the hidden rule inside a grid of shapes — the classic "which figure comes next" puzzle.

VISUAL PERCEPTION

82 ahead of 82 in 100

ROOM TO GROW — STRONG

Noticing tiny differences and details that most people scan straight past.

SPATIAL REASONING

91 ahead of 91 in 100

ROOM TO GROW — STRONG

Rotating and folding shapes in your head without touching them.

115

IQ SCORE · CLASS 9

LOGICAL REASONING

91 ahead of 91 in 100

ROOM TO GROW — STRONG

Working out what comes next in a series and why — logic that moves in a line.

NUMERICAL REASONING

82 ahead of 82 in 100

ROOM TO GROW — STRONG

Finding the pattern inside numbers — not calculation speed, but number sense.

WORKING MEMORY

48 ahead of 48 in 100

ROOM TO GROW — STRONG

Holding several things in mind at once while doing something with them.

Each number is how many students out of 100 in Class 9 this result is ahead of. The six abilities are measured by the questions answered — this is not a map of the brain, and no part of a score belongs to a part of the head.

06 · SUPERPOWER AND LEVEL-UP ZONE

06 Ananya Iyer (Sample) — your superpower and your level-up zone

SUPERPOWER

Abstract Reasoning

Abstract Reasoning — your highest score today: Top 4% of Class 9.

In plain words: spotting the hidden rule inside a grid of shapes — the classic "which figure comes next" puzzle.

Use it: choose projects, subjects and hobbies where this shines — Mathematics, physics, coding, chess, and any exam with reasoning sections.

In everyday life: In real life this is the skill behind noticing that a maths problem is the same type you solved last week, or that a story is heading somewhere familiar.

Keep it sharp: Matrix reasoning sets from an aptitude book, ten a day — a strength left alone drifts back toward the middle.

LEVEL-UP ZONE

Working Memory

Working Memory — your lowest score today (still ahead of 48 in 100 of Class 9). Not a weakness — simply the ability where practice pays fastest.

Why it matters: This is the skill behind mental arithmetic, remembering a phone number long enough to type it, and following a long instruction without notes.

The plan: 10 minutes a day for 30 days (p. 15). Students who keep it up often move this ability up a full band by next year's test.

Start here: Dual n-back, five minutes a day

A low zone is not a verdict on Ananya — it is simply the ability that has had the least practice so far, and the one where effort shows up fastest.

What these mean: your Superpower is simply the ability where you scored highest today. Your Level-up zone is the ability with the most room to grow — practising it gives the fastest improvement, which is why your 30-day plan targets it.

07 · ZONE BY ZONE · WHAT IT MEANS FOR YOU

07 Ananya Iyer (Sample) — zone by zone — what it means for you

This ability sits in **Above average** — compared only with Class 9 students.

16 of 16 questions answered

IN REAL LIFE

In real life this is the skill behind noticing that a maths problem is the same type you solved last week, or that a story is heading somewhere familiar.

WHAT ANANYA'S RESULT MEANS

Ananya scored higher than about 96 of every 100 Class 9 students here — Abstract Reasoning is a genuine strength to build a study style around.

Practice ideas

1. Matrix reasoning sets from an aptitude book, ten a day
2. Kakuro or killer Sudoku — rules stacked on rules
3. Find the pattern in real data — bus timings, score tables

Where it pays off: Mathematics, physics, coding, chess, and any exam with reasoning sections.

ZONE 2 OF 6

Logical Reasoning

nickname: **Sequence Surfer**

STRENGTH

Working out what comes next in a series and why — logic that moves in a line.

Top 9%

ROOM TO GROW — STRONG

BAND · CLASS 9

Very high	
Above average	← Ananya
Average (upper half)	
Average (lower half)	
Developing	
Still emerging	

This ability sits in **Above average** — compared only with Class 9 students.

16 of 16 questions answered

IN REAL LIFE

This is the skill you use when following multi-step instructions, planning a route, or predicting the next step of an experiment.

WHAT ANANYA'S RESULT MEANS

Ananya scored higher than about 91 of every 100 Class 9 students here — Logical Reasoning is a genuine strength to build a study style around.

Practice ideas

1. Series questions from aptitude papers — rule before answer
2. Chess puzzles: three moves ahead, not one
3. Trace a process backwards: result → the steps that made it

Where it pays off: Algebra, programming logic, science method, competitive exams.

ZONE 3 OF 6

Spatial Reasoning

nickname: **Shape Shifter**

STRENGTH

Rotating and folding shapes in your head without touching them.

Still emerging	

This ability sits in **Above average** — compared only with Class 9 students.

16 of 16 questions answered

IN REAL LIFE

This is what lets you pack a suitcase efficiently, read a map, or picture how a flat-pack turns into furniture.

WHAT ANANYA'S RESULT MEANS

Ananya scored higher than about 91 of every 100 Class 9 students here — Spatial Reasoning is a genuine strength to build a study style around.

Practice ideas

1. Aptitude spatial sets: rotation, mirror, assembly
2. Paper-fold-and-punch questions, timed
3. Sketch a 3D object from two given views

Where it pays off: Geometry, engineering, architecture, surgery, design, aviation.

ZONE 4 OF 6

Visual Perception

nickname: **Eagle Eye**

STRENGTH

Noticing tiny differences and details that most people scan straight past.

Top 18%

Average (lower half)	
Developing	
Still emerging	

This ability sits in **Average (upper half)** — compared only with Class 9 students.

16 of 16 questions answered

IN REAL LIFE

This is proofreading power, the eye that catches the one wrong digit in a bill, and the ability to spot what changed in a diagram.

WHAT ANANYA'S RESULT MEANS

Ananya is comfortably ahead of most of Class 9 in Visual Perception — higher than about 82 in 100 students. Regular light practice keeps this climbing.

Practice ideas

1. Figure-comparison sets from aptitude books
2. Error-checking drills: bank-statement style number rows
3. Mirror-image questions, timed

Where it pays off: Biology diagrams, geometry, design, medicine, quality-checking work, editing.

ZONE 5 OF 6

Numerical Reasoning

nickname: **Number Ninja**

STRENGTH

Finding the pattern inside numbers — not calculation speed, but number sense.

Top 18%

ROOM TO GROW — STRONG

BAND · CLASS 9

Exceptionally high	
Very high	
Above average	
Average (upper half) ← Ananya	
Average (lower half)	
Developing	
Still emerging	

This ability sits in **Average (upper half)** — compared only with Class 9 students.

16 of 16 questions answered

IN REAL LIFE

This is the skill behind estimating whether a shop's discount is actually good, or sensing that an answer is far too large before you check it.

WHAT ANANYA'S RESULT MEANS

Ananya is comfortably ahead of most of Class 9 in Numerical Reasoning — higher than about 82 in 100 students. Regular light practice keeps this climbing.

Practice ideas

1. Aptitude number series, ten a day
2. Squares to 25, cubes to 12 — instant recall
3. Ratio and percentage word problems, timed

Where it pays off: Mathematics, accountancy, economics, data work, engineering entrance exams.

Zone by zone — what it means for you

ZONE 6 OF 6 · your level-up zone

Working Memory

nickname: **Memory Master**

SOLID

Holding several things in mind at once while doing something with them.

Ahead of 48 in 100

- Still emerging

This ability sits in **Average (lower half)** — compared only with Class 9 students.

11 of 11 questions answered

IN REAL LIFE

This is the skill behind mental arithmetic, remembering a phone number long enough to type it, and following a long instruction without notes.

WHAT ANANYA'S RESULT MEANS

Working Memory is currently Ananya's biggest opportunity — ahead of about 48 in 100 Class 9 students today. The exercises below are exactly how this number moves.

Practice ideas

1. Dual n-back, five minutes a day
2. Memorise formulae by structure, recall them next day
3. Phone numbers: hear once, dial from memory

Where it pays off: Every subject — this is the workspace all other thinking happens in.

08 · 30-DAY WORKOUT AND 90-DAY PLAN

08

Ananya Iyer (Sample) — your 30-day workout — and the 90-day path

A four-week practice plan written for you, the student, built around your level-up zone — Working Memory.

WEEK 1

Ten minutes a day of the timed version — accuracy first, speed second.

WEEK 2

Raise the difficulty: two rules at once, or one less second.

WEEK 3

Mixed set, no warm-up — start cold, the way an exam does.

WEEK 4

Full set under time, then review only what you got wrong.

How to use it: ten minutes a day, phone timer on. Each week gets slightly harder on purpose — abilities grow at the edge of comfortable. An unbroken streak beats any single long session.

Nothing to buy: paper and pencil, a deck of cards, a free puzzle app, or the puzzle page of any newspaper.

STREAK TRACKER · TICK A BOX EACH DAY

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

After 30 days — the 90-day path

Then run the same ten minutes at the next ability. Three rounds is 90 days, and by then the first has become habit.

DAYS 1–30

Working Memory

Dual n-back, five minutes a day

DAYS 31–60

Visual Perception

Figure-comparison sets from aptitude books

DAYS 61–90

 # Numerical Reasoning

Aptitude number series, ten a day

Practice sharpens the ability itself — not a shortcut to a bigger number.

09 · YOUR GROWTH STORY

Ananya Iyer (Sample) — your growth story

Take it again next year — this box fills with your own line.

10 · FOR PARENTS

Ananya Iyer (Sample) — for parents — what to actually do

- **Praise the strength by name.** Say: "Your Abstract Reasoning is a real strength." Specific praise works better than "well done".
- **Do the first week together.** The 30-day plan (p. 15) takes 10 minutes a day. Sit with Ananya for the first few days, then let Ananya own it.
- **Keep puzzles fun.** They are play, not extra homework. One puzzle a day is enough.
- **Book next year's test now.** Same season next year. Then compare Ananya only with Ananya — that line matters more than today's number.
- **Two don'ts.** Don't use the score as a label. Don't compare with siblings or classmates. If anything worries you, talk to the school counsellor.
- **Tie it to the year ahead.** At Class 9 this feeds stream and entrance-exam choices — use it as one input, never the deciding one.
- **Protect sleep over extra hours.** At this age fatigue costs more marks than an extra revision hour gains.

11 · FOR THE COUNSELLOR / TEACHER

11 Ananya Iyer (Sample) — for the counsellor / teacher

- **The picture in one line:** strong in Abstract Reasoning (top 4%), needs practice in Working Memory (ahead of 48 in 100). Overall: Above average for Class 9.
- **In class:** let Ananya use the strength openly — it builds confidence. Give short, easy practice tasks in Working Memory — the weekly plan (p. 15) can be used as-is.
- **Two check-ins:** ask about the practice plan on day 15 and day 30. That alone doubles follow-through.
- **What next:** add a career-interest test this year — ability plus interest gives reliable stream advice. Retest next season on the Class 10 paper.
- **Age note:** at Class 9 this is most useful beside interest and attainment data — ability alone should not drive a stream decision.
- **At this age:** map the strength to subject combinations, and treat the growth zone as exam technique, not remediation.
- **What this result does not license:** it is a screening assessment, not a diagnosis. For any clinical question, refer Ananya to a psychologist.

Next steps

Start the 30-day workout

Working Memory, ten minutes a day — p. 15.

Add a career-interest test

Pair this ability report with the Ideal Career Test™ on psychometrictest.ai.

Retest next year

Class 10 paper, same season — fill in the growth story on p. 16.
