01 · ABOUT THE ASSESSMENT

01 About the 21st Century Life Skills Assessment

"21st-century skills" are the core competencies — critical thinking, interpersonal skills, self-management and AI readiness — that help students succeed in school today and in the workforce tomorrow. This assessment measures **16 life skills across 4 areas**, on a framework built from the **World Economic Forum** and **WHO** guidance on 21st-century curriculum and life skills.

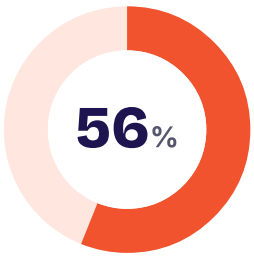

Life skills usually aren't taught — they're picked up by watching and doing. That's exactly why measuring them matters: the scores show where Arnav is already strong (use it to their advantage!) and where focused, small practice will pay off most. These skills are not fixed — every one of them grows with practice.

How to use this report: parents, teachers and counsellors can read the Focus Areas together with the growth plan above — each recommended activity targets a specific skill. Retaking the assessment every year turns this report into a growth story, not a snapshot. → growth plan: p. 20

02 · LIFE SKILL SCORE

Arnav's 16 skills on one wheel

WHAT THIS WHEEL IS

All 16 life skills the 21st Century Life Skills Assessment measured, grouped into 4 colour areas. Each piece is one skill, with Arnav's score on it; the total sits in the middle. Every student's wheel looks different — that is the point of it.

WHY IT MATTERS IN CLASS 10

In Class 10, the decisions get real — how you study, who you work with, how you handle pressure, and what you trust online. Marks measure what you know. This wheel measures how you handle things — and that keeps growing long after the exam.

WHAT IT IS WORTH FROM HERE

AI can now answer most of what you are asked to memorise. What it cannot do is decide what matters, read a room, or own a mistake — and those are the skills on this wheel. A lighter digital score here is not about using apps; it is about judging what to trust.

Arnav's overall level

Built on the WHO life-skills and World Economic Forum 21st-century skill frameworks. Take it again next year and watch the wheel change.

COGNITIVE SKILLS · SKILL 1 OF 4

Decision Making

Developing

How you choose between options — weighing what matters instead of picking on impulse or copying others.

50 /100

Interpretation: Arnav's Decision Making is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Thinks of what could happen before choosing
- Can say WHY they picked one option over another
- Doesn't just copy what friends chose

Our recommendation

Makes sound choices when calm, but rushes or follows the group when pressed. Practising a quick 'options-outcomes' pause builds the habit.

COGNITIVE SKILLS · SKILL 2 OF 4

Problem Solving

Strength

What you do when something doesn't work — breaking it into parts, trying approaches, and using what you have.

75 /100

Interpretation: Arnav's Problem Solving is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Tries a second way when the first fails
- Breaks a big task into smaller steps
- Uses what's on hand instead of waiting for perfect conditions

Our recommendation

Approaches problems in steps and keeps trying angles until something works — a genuine strength. Feed it harder, messier problems.

Critical Thinking · Curiosity & Learning to Learn

COGNITIVE SKILLS · SKILL 3 OF 4

Critical Thinking

Strength

Checking ideas before believing them — spotting weak reasons, missing evidence, and claims that don't add up.

75 /100

Interpretation: Arnav's Critical Thinking is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Asks for the reason behind a claim
- Spots when an argument doesn't follow
- Separates facts from opinions in what they read

Our recommendation

Evaluates claims and spots weak reasoning reliably — thinks before believing. Sharpen it on real arguments: news, ads, debates.

COGNITIVE SKILLS · SKILL 4 OF 4

Curiosity & Learning to Learn

Focus Area

How much you want to find things out — asking questions, exploring beyond the syllabus, and knowing how you learn best.

25 /100

Interpretation: Arnav's Curiosity & Learning to Learn is in the **Focus Area** range.

Best place to focus this year — small daily practice works fastest.

You'll notice this skill when...

- Asks questions beyond what's needed for marks
- Explores topics nobody assigned
- Notices which study methods work for them

Our recommendation

Learning currently feels like a chore done for marks. Rebuild from interest: any topic they love counts — curiosity transfers.

INTERPERSONAL SKILLS · SKILL 1 OF 4

Collaboration & Teamwork

Developing

Working WITH people — sharing work fairly, helping teammates, and putting the team's goal above being right.

50 /100

Interpretation: Arnav's Collaboration & Teamwork is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Does their share without being chased
- Helps a struggling teammate instead of complaining
- Accepts the group's decision even when theirs wasn't picked

Our recommendation

Works well in teams they like, less so otherwise — friction shows as silence or solo-work. Practising one supportive act per project helps.

INTERPERSONAL SKILLS · SKILL 2 OF 4

Leadership

Strength

Getting a group moving — stepping up, including everyone, and taking responsibility when things go wrong.

75 /100

Interpretation: Arnav's Leadership is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Steps up when no one else does
- Makes sure quieter members get heard
- Owns mistakes instead of blaming the team

Our recommendation

Steps up naturally and lifts the group — inclusive, responsible leadership. Give it real scope: events, clubs, captaincy.

Flexibility & Adaptability · Communication

INTERPERSONAL SKILLS · SKILL 3 OF 4

Flexibility & Adaptability

Focus Area

Handling change without falling apart — new plans, new people, new rules, surprises.

38 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Arnav's Flexibility & Adaptability is in the **Focus Area** range.

Best place to focus this year — small daily practice works fastest.

You'll notice this skill when...

- Stays calm when plans change suddenly
- Tries new ways instead of insisting on the usual one
- Settles quickly with new classmates or teachers

Our recommendation

Changes of plan, place or people are genuinely hard right now. Build with small, chosen changes plus a simple 'plan B' habit.

INTERPERSONAL SKILLS · SKILL 4 OF 4

Communication

Developing

Getting your message across and taking others' in — clearly, at the right time, in the right way.

63 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Arnav's Communication is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Explains ideas so others get them first time
- Listens fully before replying
- Picks the right moment and tone for hard conversations

Our recommendation

Gets the message across with friends but struggles in formal moments, conflicts, or groups. Practising structured speaking builds range.

INTRAPERSONAL SKILLS · SKILL 1 OF 4

Empathy

Strength

Feeling with people — noticing how someone else feels and letting it shape what you do.

75 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Arnav's Empathy is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Notices when someone is left out or low
- Checks on people, not just tasks
- Considers how a joke or comment might land before making it

Our recommendation

Tunes into others' feelings and acts on it — kind AND perceptive. It will make them the person people trust; protect it from being taken for granted.

INTRAPERSONAL SKILLS · SKILL 2 OF 4

Resilience & Coping

Developing

Bouncing back — handling stress, disappointment and bad days without staying down.

69 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Arnav's Resilience & Coping is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Recovers from a bad mark without spiralling
- Has ways to calm down when stressed
- Talks about problems instead of bottling them

Our recommendation

Copes with everyday stress but big disappointments linger. Building 2–3 named calming strategies makes recovery reliable.

INTRAPERSONAL SKILLS · SKILL 3 OF 4

Initiative

Developing

Starting without being told — seeing what needs doing and beginning, instead of waiting for instructions.

50 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Arnav's Initiative is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Starts homework or chores without reminders
- Proposes ideas instead of waiting to be assigned
- Sees something needed and just does it

Our recommendation

Starts well in areas they enjoy; elsewhere waits for a push. Shrinking the first step ('just open the book') builds the starting muscle.

INTRAPERSONAL SKILLS · SKILL 4 OF 4

Persistence & Grit

Developing

Sticking with things — through boring middles, hard parts, and slow progress.

56 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Arnav's Persistence & Grit is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Finishes what they start, even the boring middle
- Practises things they're not yet good at
- Treats 'not yet' as normal, not as failure

Our recommendation

Perseveres when progress shows, drifts when it stalls. Tracking small progress visibly (streaks, checklists) sustains the middle stretch.

Media Literacy

Developing

Seeing through content — knowing who made a message, why, and whether to trust it: ads, forwards, posts, videos.

50 /100

Interpretation: Arnav's Media Literacy is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Asks who made this and why before believing it
- Spots ads and sponsored content dressed as posts
- Doesn't forward things without checking

Our recommendation

Spots obvious fakes but slips on polished ones — sponsored posts, emotional forwards, edited images. A 'pause before share' rule covers most gaps.

AI READINESS · SKILL 2 OF 4

Information Literacy

Developing

Finding and judging information — searching well, picking trustworthy sources, and using what you find honestly.

50 /100

Interpretation: Arnav's Information Literacy is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Checks more than the first search result
- Prefers sources that cite evidence
- Says where information came from in their work

Our recommendation

Finds information but often settles for the first result or a weak source. Comparing two sources per question upgrades everything downstream.

A real strength — keep building on it!

You'll notice this skill when...

- Messages politely — to teachers differently than to friends
- Knows what belongs in a group chat and what doesn't
- Thinks how a message will land before sending

Our recommendation

Communicates skilfully on screens — right tone, right channel, and thoughtful about how messages land. A visible edge in projects and beyond.

A real strength — keep building on it!

You'll notice this skill when...

- Keeps passwords private, even from friends
- Recognises scams, fake prizes and phishing messages
- Knows what personal information should never be shared

Our recommendation

Strong safety instincts — protects accounts, spots scams, guards personal information. Keep updating; the tricks keep changing.

Every activity maps to one of the 16 skills on the wheel above (p. 5).

For parents and teachers

09 · FOR PARENTS
For parents

- Answer questions with enthusiasm even when busy — or say 'let's find out together'. Shut-down questions quietly switch curiosity off.

10 · FOR TEACHERS
For teachers

- Leave room for tangents and student questions; a 'question wall' signals that asking is as valued as answering.

Every skill on this wheel grows with practice. See you next year, Arnav — bring a bigger wheel.

Same season, new wheel — watch it change.

HOW TO READ THIS REPORT

Compared fairly: results are compared only with Class 10 students — never with other ages.

One-day snapshot: any test reflects one day. Sleep, mood and surroundings move results — that is why retaking next year matters more than any single score.

Not a label: skills in this report are built, not born — every score here moves with practice.

EXPORT & SHARE
