01 · ABOUT THE ASSESSMENT

01 About the 21st Century Life Skills Assessment

"21st-century skills" are the core competencies — critical thinking, interpersonal skills, self-management and AI readiness — that help students succeed in school today and in the workforce tomorrow. This assessment measures **16 life skills across 4 areas**, on a framework built from the **World Economic Forum** and **WHO** guidance on 21st-century curriculum and life skills.

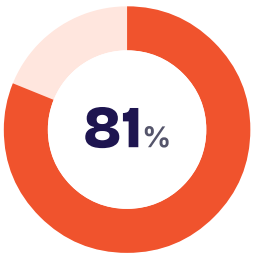

Life skills usually aren't taught — they're picked up by watching and doing. That's exactly why measuring them matters: the scores show where Ishaan is already strong (use it to their advantage!) and where focused, small practice will pay off most. These skills are not fixed — every one of them grows with practice.

How to use this report: parents, teachers and counsellors can read the Focus Areas together with the growth plan above — each recommended activity targets a specific skill. Retaking the assessment every year turns this report into a growth story, not a snapshot. → growth plan: p. 20

Ishaan's 16 skills on one wheel

WHAT THIS WHEEL IS

All 16 life skills the 21st Century Life Skills Assessment measured, grouped into 4 colour areas. Each piece is one skill, with Ishaan's score on it; the total sits in the middle. Every student's wheel looks different — that is the point of it.

WHY IT MATTERS IN CLASS 8

In Class 8, school has got bigger — more subjects, group projects, your own choices, and your first real life online. These 16 skills are what carry you through all of it. A lighter score is not a verdict. It is simply the skill that will move fastest with practice this year.

WHAT IT IS WORTH FROM HERE

A lot of what school rewards — remembering things, looking them up — is becoming something a computer does in a second. What stays valuable is the part of you on this wheel: how you judge, how you work with people, and whether you keep going.

Ishaan's overall level

Built on the WHO life-skills and World Economic Forum 21st-century skill frameworks. Take it again next year and watch the wheel change.

COGNITIVE SKILLS · SKILL 1 OF 4

Decision Making

Strength

How you choose between options — weighing what matters instead of picking on impulse or copying others.

75 /100

Interpretation: Ishaan's Decision Making is in the **Strength** range.

☆ **A real strength — keep building on it!**

You'll notice this skill when...

- Thinks of what could happen before choosing
- Can say WHY they picked one option over another
- Doesn't just copy what friends chose

Our recommendation

Weighs options and consequences before choosing — decisions are deliberate, not impulsive. Stretch it with bigger calls: budgets, plans, trade-offs.

COGNITIVE SKILLS · SKILL 2 OF 4

Problem Solving

Strength

What you do when something doesn't work — breaking it into parts, trying approaches, and using what you have.

88 /100

Interpretation: Ishaan's Problem Solving is in the **Strength** range.

☆ **A real strength — keep building on it!**

You'll notice this skill when...

- Tries a second way when the first fails
- Breaks a big task into smaller steps
- Uses what's on hand instead of waiting for perfect conditions

Our recommendation

Approaches problems in steps and keeps trying angles until something works — a genuine strength. Feed it harder, messier problems.

Critical Thinking · Curiosity & Learning to Learn

COGNITIVE SKILLS · SKILL 3 OF 4

Critical Thinking

Checking ideas before believing them — spotting weak reasons, missing evidence, and claims that don't add up.

67 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Growing well — steady practice will lift this.

You'll notice this skill when...

- Asks for the reason behind a claim
- Spots when an argument doesn't follow
- Separates facts from opinions in what they read

Our recommendation

Questions some things but accepts others too quickly, especially from friends or favourite sources. 'What's the evidence?' as a habit closes the gap.

COGNITIVE SKILLS · SKILL 4 OF 4

Curiosity & Learning to Learn

Strength

How much you want to find things out — asking questions, exploring beyond the syllabus, and knowing how you learn best.

INTERPERSONAL SKILLS · SKILL 1 OF 4

Collaboration & Teamwork

Developing

Working WITH people — sharing work fairly, helping teammates, and putting the team's goal above being right.

63 /100

Interpretation: Ishaan's Collaboration & Teamwork is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Does their share without being chased
- Helps a struggling teammate instead of complaining
- Accepts the group's decision even when theirs wasn't picked

Our recommendation

Works well in teams they like, less so otherwise — friction shows as silence or solo-work. Practising one supportive act per project helps.

INTERPERSONAL SKILLS · SKILL 2 OF 4

Leadership

Developing

Getting a group moving — stepping up, including everyone, and taking responsibility when things go wrong.

50 /100

Interpretation: Ishaan's Leadership is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Steps up when no one else does
- Makes sure quieter members get heard
- Owns mistakes instead of blaming the team

Our recommendation

Leads when asked but rarely volunteers, or leads by doing everything personally. Practising delegation and speaking first grows it.

Flexibility & Adaptability · Communication

INTERPERSONAL SKILLS · SKILL 3 OF 4

Flexibility & Adaptability

Strength

Handling change without falling apart — new plans, new people, new rules, surprises.

88 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Ishaan's Flexibility & Adaptability is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Stays calm when plans change suddenly
- Tries new ways instead of insisting on the usual one
- Settles quickly with new classmates or teachers

Our recommendation

Adapts quickly and calmly when things change — a skill the modern world pays for. Stretch it by choosing unfamiliar situations on purpose.

INTERPERSONAL SKILLS · SKILL 4 OF 4

Communication

Focus Area

Getting your message across and taking others' in — clearly, at the right time, in the right way.

25 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Ishaan's Communication is in the **Focus Area** range.

Best place to focus this year — small daily practice works fastest.

You'll notice this skill when...

- Explains ideas so others get them first time
- Listens fully before replying
- Picks the right moment and tone for hard conversations

Our recommendation

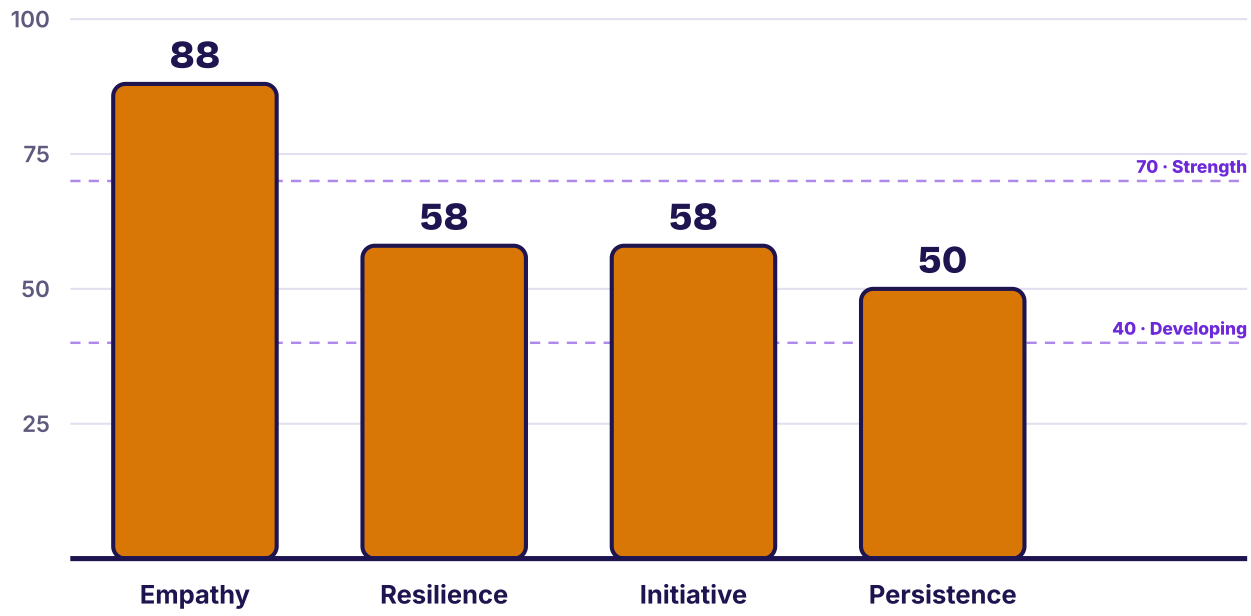

Often misunderstood or unheard — messages come out muddled, too blunt, or not at all. Start with one-sentence clear asks and 'repeat back' listening.

INTRAPERSONAL SKILLS · SKILL 1 OF 4

Empathy

Strength

Feeling with people — noticing how someone else feels and letting it shape what you do.

88 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Ishaan's Empathy is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Notices when someone is left out or low
- Checks on people, not just tasks
- Considers how a joke or comment might land before making it

Our recommendation

Tunes into others' feelings and acts on it — kind AND perceptive. It will make them the person people trust; protect it from being taken for granted.

INTRAPERSONAL SKILLS · SKILL 2 OF 4

Resilience & Coping

Developing

Bouncing back — handling stress, disappointment and bad days without staying down.

58 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Ishaan's Resilience & Coping is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Recovers from a bad mark without spiralling
- Has ways to calm down when stressed
- Talks about problems instead of bottling them

Our recommendation

Copes with everyday stress but big disappointments linger. Building 2–3 named calming strategies makes recovery reliable.

INTRAPERSONAL SKILLS · SKILL 3 OF 4

Initiative

Developing

Starting without being told — seeing what needs doing and beginning, instead of waiting for instructions.

58 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Ishaan's Initiative is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Starts homework or chores without reminders
- Proposes ideas instead of waiting to be assigned
- Sees something needed and just does it

Our recommendation

Starts well in areas they enjoy; elsewhere waits for a push. Shrinking the first step ('just open the book') builds the starting muscle.

INTRAPERSONAL SKILLS · SKILL 4 OF 4

Persistence & Grit

Developing

Sticking with things — through boring middles, hard parts, and slow progress.

50 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Interpretation: Ishaan's Persistence & Grit is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Finishes what they start, even the boring middle
- Practises things they're not yet good at
- Treats 'not yet' as normal, not as failure

Our recommendation

Perseveres when progress shows, drifts when it stalls. Tracking small progress visibly (streaks, checklists) sustains the middle stretch.

67 /100

Interpretation: Ishaan's Media Literacy is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Asks who made this and why before believing it
- Spots ads and sponsored content dressed as posts
- Doesn't forward things without checking

Our recommendation

Spots obvious fakes but slips on polished ones — sponsored posts, emotional forwards, edited images. A 'pause before share' rule covers most gaps.

AI READINESS · SKILL 2 OF 4

Information Literacy

Developing

Finding and judging information — searching well, picking trustworthy sources, and using what you find honestly.

67 /100

Interpretation: Ishaan's Information Literacy is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Checks more than the first search result
- Prefers sources that cite evidence
- Says where information came from in their work

Our recommendation

Finds information but often settles for the first result or a weak source. Comparing two sources per question upgrades everything downstream.

A real strength — keep building on it!

You'll notice this skill when...

- Messages politely — to teachers differently than to friends
- Knows what belongs in a group chat and what doesn't
- Thinks how a message will land before sending

Our recommendation

Communicates skilfully on screens — right tone, right channel, and thoughtful about how messages land. A visible edge in projects and beyond.

- Keeps passwords private, even from friends
- Recognises scams, fake prizes and phishing messages
- Knows what personal information should never be shared

Our recommendation

Currently vulnerable online — safety basics need building now, before habits harden. Start with passwords, personal info, and 'ask an adult when unsure'.
