01 · ABOUT THE ASSESSMENT

01 About the 21st Century Life Skills Assessment

"21st-century skills" are the core competencies — critical thinking, interpersonal skills, self-management and AI readiness — that help students succeed in school today and in the workforce tomorrow. This assessment measures **16 life skills across 4 areas**, on a framework built from the **World Economic Forum** and **WHO** guidance on 21st-century curriculum and life skills.

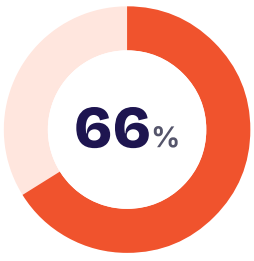

Life skills usually aren't taught — they're picked up by watching and doing. That's exactly why measuring them matters: the scores show where Navya is already strong (use it to their advantage!) and where focused, small practice will pay off most. These skills are not fixed — every one of them grows with practice.

How to use this report: parents, teachers and counsellors can read the Focus Areas together with the growth plan above — each recommended activity targets a specific skill. Retaking the assessment every year turns this report into a growth story, not a snapshot. → growth plan: p. 20

Navya's 16 skills on one wheel

WHAT THIS WHEEL IS

All 16 life skills the 21st Century Life Skills Assessment measured, grouped into 4 colour areas. Each piece is one skill, with Navya's score on it; the total sits in the middle. Every student's wheel looks different — that is the point of it.

WHY IT MATTERS IN CLASS 9

In Class 9, the decisions get real — how you study, who you work with, how you handle pressure, and what you trust online. Marks measure what you know. This wheel measures how you handle things — and that keeps growing long after the exam.

WHAT IT IS WORTH FROM HERE

AI can now answer most of what you are asked to memorise. What it cannot do is decide what matters, read a room, or own a mistake — and those are the skills on this wheel. A lighter digital score here is not about using apps; it is about judging what to trust.

Navya's overall level

Built on the WHO life-skills and World Economic Forum 21st-century skill frameworks. Take it again next year and watch the wheel change.

COGNITIVE SKILLS · SKILL 1 OF 4

Decision Making

Developing

How you choose between options — weighing what matters instead of picking on impulse or copying others.

63 /100

Interpretation: Navya's Decision Making is in the **Developing** range.

Growing well — steady practice will lift this.

You'll notice this skill when...

- Thinks of what could happen before choosing
- Can say WHY they picked one option over another
- Doesn't just copy what friends chose

Our recommendation

Makes sound choices when calm, but rushes or follows the group when pressed. Practising a quick 'options-outcomes' pause builds the habit.

COGNITIVE SKILLS · SKILL 2 OF 4

Problem Solving

Strength

What you do when something doesn't work — breaking it into parts, trying approaches, and using what you have.

75 /100

Interpretation: Navya's Problem Solving is in the **Strength** range.

A real strength — keep building on it!

You'll notice this skill when...

- Tries a second way when the first fails
- Breaks a big task into smaller steps
- Uses what's on hand instead of waiting for perfect conditions

Our recommendation

Approaches problems in steps and keeps trying angles until something works — a genuine strength. Feed it harder, messier problems.

Critical Thinking · Curiosity & Learning to Learn

COGNITIVE SKILLS · SKILL 3 OF 4

Critical Thinking

Developing

Checking ideas before believing them — spotting weak reasons, missing evidence, and claims that don't add up.

50 /100

0 · Focus | 40 · Developing | 70 · Strength | 100

Growing well — steady practice will lift this.

You'll notice this skill when...

- Asks for the reason behind a claim
- Spots when an argument doesn't follow
- Separates facts from opinions in what they read

Our recommendation

Questions some things but accepts others too quickly, especially from friends or favourite sources. 'What's the evidence?' as a habit closes the gap.

COGNITIVE SKILLS · SKILL 4 OF 4

Curiosity & Learning to Learn

Strength

How much you want to find things out — asking questions, exploring beyond the syllabus, and knowing how you learn best.

75 /100

0 · Focus | 40 · Developing | 70 · Strength | 100
